

AK HARBOR, WA.

REUNION - 1991

1991

Brian Johnson, Duane and Peggy Keele were among the early arrivers at Oak Harbor. To kill a little time, they went up to Vancouver on Thursday. They had a nice lunch in the old downtown area.

On the way up, Brian and Duane couldn't resist stopping by Glacier Helicopters, Inc. and explaining all about S58T's and how to run a helicopter company.

Victor David came early and started pointing out what was wrong with the operation.

Marvin "Windy" Wingrove showed up telling all the young girls he could get them in PICTURES!

Finally Sylvia Green and Montie Sandoval got the check in desk set up and the situation under control.

The intellectual member of of the club showed up and Montie gets his autograph. Montrell Sandoval and Dr. William Leary

"That's me with Wilber Wright," says Rocky Nesom to Willy Utterback (who really knew Wilber Wright).

"I can still read the last line of any old eye chart without my glasses," says Willy to a disbelieving Frank Devito and Danny Williams (who just caught the punch line of the prior joke).

"It's been stuck to his eye like that for for about an hour now," says Jeff Johnson about Windy Wingrove to Don Carver and Willy.

Friday Night-THE COCKTAIL PARTY

Knowing the difficulties involved in removing some Air America people directly from the hospitality suite to a higher social plateau, a practice party was held Friday night to try and up grade the general drinking class and weed out the social misfits.
