Citation

BY DIRECTION OF THE PRESIDENT
THE AIR MEDAL
IS PRESENTED TO

WARRANT OFFICER (W01) BOBBY G. CORMACK, W3 161 108, UNITED STATES ARMY

For distinguishing himself by meritorious achievement while participating in sustained aerial flight in support of combat ground forces of the Republic of Vietnam during the period 22 August 1968 to 28 August 1968

During this time he actively participated in twenty-five aerial missions over hostile territory in support of counterinsurgency operations. During all of these missions he displayed the highest order of air discipline and acted in accordance with the best traditions of the service. By his determination to accomplish his mission in spite of the hazards inherent in repeated aerial flights over hostile territory and by his outstanding degree of professionalism and devotion to duty, he has brought credit upon himself, his organization, and the military service.

101st AIRBORNE DIVISION

CITATION

BY DIRECTION OF THE SECRETARY OF THE ARMY
THE ARMY COMMENDATION MEDAL
IS PRESENTED TO

WARRANT OFFICER (WO1) BOBBY G. CORMACK, W3 161 108, UNITED STATES ARMY

For distinguishing himself by meritorious achievement in ground operations in the Republic of Vietnam during the period 1 October 1968 to 28 February 1969

His outstanding performance during the cited period was a significant contribution in support of the United States counterinsurgency effort in the Republic of Vietnam. He performed in a highly professional and efficient manner, accomplishing his assigned mission with exceptional results. He set an example that inspired his associates to strive for maximum achievement. His initiative, sound judgment, loyalty and will to succeed have been in the best tradition of the military service and reflect great credit upon himself, his unit, and the United States Army.

101st AIRBORNE DIVISION

CITATION

BY DIRECTION OF THE PRESIDENT
THE BRONZE STAR MEDAL

IS PRESENTED TO

WARRANT OFFICER (WOL) BOBBY G. CORMACK, W3 161 108, UNITED STATES ARMY

For distinguishing himself by outstanding meritorious service in connection with ground operations against a hostile force in the Republic of Vietnam during the period 1 September 1968 to 30 April 1969

Through his untiring efforts and professional ability, he consistently obtained outstanding results. He was quick to grasp the implications of new problems with which he was faced as a result of the ever changing situations inherent in a counterinsurgency operation and to find ways and means to solve those problems. The energetic application of his extensive knowledge has materially contributed to the efforts of the United States Mission to the Republic of Vietnam to assist that country in ridding itself of the communist threat to its freedom. His initiative, zeal, sound judgment and devotion to duty have been in the highest tradition of the United States Army and reflect great credit on him and on the military service.

GENERAL ORDERS
NUMBER 7453

AWARD OF THE AIR MEDAL WITH "V" DEVICE (FIRST OAK LEAF CLUSTER)

1. TC 320. The following AWARD is announced.

CORMACK, BOBBY G W3161109 (Removed by VNCA) WARRANT OFFICER (WO1) Company C 101st Aviation Battalion
(Assault Helicopter) APO San Francisco 96383

Awarded: The Air Medal with "V" Device (First Oak Leaf Cluster)

Effective month: NA

Date action: 17 November 1968

Theater: Republic of Vietnam

Reason: For heroism while participating in aerial flight in the Republic of Vietnam on 16 November 1968. Warrant Officer Cormack distinguished himself while serving as pilot on a UH-1H helicopter in support of an emergency extraction of a Special Forces team in the vicinity of Khe Sanh, Republic of Vietnam. The team had been inserted earlier that day and had come in contact with an unknown size enemy force. Helicopter gunships and tactical fighter aircraft support were employed, but the enemy force continued to direct heavy fire against the team. Warrant Officer Cormack efficiently monitored the radios, keeping the Command and Control aircraft advised of his situation and progress and keeping the aircraft commander aware of obstacles. He then supervised the rapid loading of the wounded. After taking the wounded to a medical unit, his aircraft returned to the landing zone. The decision was made to extract the team, and his aircraft approached the landing zone to extract the first load of troops. After his aircraft departed with its load of troops, it began an orbit to wait for the other two helicopters. The third aircraft out of the landing zone was struck by automatic weapons fire, and the aircraft commander reported he would have to land due to severe vibrations. After dropping off his load of troops, Warrant Officer Cormack returned to the downed helicopter to pick up the security force which had been left with the downed aircraft. Throughout the operation, he acted in a highly professional manner, despite heavy enemy fire and the urgency of the situation. Warrant Officer Cormack's outstanding living ability and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army.

Authority: By direction of the President of the United States under the provisions of Executive Order 9242-A.

27 June 1969

AWARD OF THE DISTINGUISHED FLYING CROSS

1. TC 320. The following AWARD is announced.

CORMACK, BOBBY G W3161108 (Removed by VNCA) WARRANT OFFICER (WO1) Company C 101st Aviation Battalion (Assault Helicopter) APO San Francisco 96383

Awarded: The Distinguished Flying Cross

Effective month: NA

Date action: 12 May 1969

Theater: Republic of Vietnam

Reason: For heroism while participating in aerial flight as evidenced by voluntary action above and beyond the call of duty in the Republic of Vietnam on 12 May 1969. Warrant Officer Cormack distinguished himself while serving as flight leader of a flight of helicopters near Landing Zone Bastogne, Republic of Vietnam. On the cited date, Warrant Officer Cormack voluntarily led a night combat assault to secure a downed helicopter in a river gorge located in deep, mountainous terrain. On the initial approach, while approximately two hundred feet above the landing zone site, the parachute flares used to illuminate the area terminated, leaving the flight in total darkness. Warrant Officer Cormack then used his instruments and successfully led the flight out of the gorge without incident. After extracting the helicopter, he returned and assaulted the area. Through his flying skill and aggressive leadership, he successfully completed an urgent mission in very adverse conditions. Warrant Officer Cormack's outstanding flying ability and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army.

Authority: By direction of the President of the United States under the provisions of the Act of Congress, approved 2 July 1926.

WOI Bobby G. Cormack
101st Aviation Bn
101st Airborne Division
APO SF 96383

1. The history of the 101st Airborne Division from World War II to Vietnam is rich with the **valorous** deeds of some of the bravest men who have ever fought in battle. As a recipient of an award for valor, you have personally made a significant contribution to this history and to the successful accomplishment of the Screaming Eagle mission.
2. As a special recognition of your **valorous** actions, you are presented a Brave Eagle Coin, symbolizing your willingness to give above and beyond the call of duty.
3. Please accept also my personal thanks and congratulations. Your valor marks you as one who -- like this great Division -- has met the challenge of our Rendezvous with Destiny in Vietnam -- All the Way, Airborne!

SUBJECT: Army National Speakers Program

TO: WO1 Bobby G. Cormack

Removed by VNCA

1. Your selection to compete for participation in the Army National Speakers Program speaks highly for your potential as a military speechmaker.
2. As you know, only fifty of the eighty candidates auditioned by Headquarters, U.S. Army Vietnam are selected for screening by Department of the Army and subsequent speaking tours in civilian communities. While your speaking talents were recognized by your unit commander, competition at USARV placed you below the cutoff score for continued participation in the Speakers Program.
3. Although the USARV evaluators are unable to forward your name to Department of the Army for further consideration, this does not preclude you from offering your speaking abilities to the Information Officer at your next duty station. I am certain that he would welcome the opportunity to arrange speaking engagements in nearby communities that you might share your Vietnam experiences and assist him in telling the Army story to the American public.
4. I wish you continued success in your military career and offer the services of the USARV Information Office if we can be of assistance in the future.

The Story of Uncle Bob

The teacher gave her fifth grade class an assignment: get their parents to tell them a story with a moral at the end of it. The next day the kids came back and one by one began to tell their stories.

Kathy said, "My father's a farmer and we have a lot of egg laying hens. One time we were taking our eggs to market in a basket on the front seat of the pickup when we hit a bump in the road and all the eggs went flying and broke and made a mess". "And what's the moral of the story?" asked the teacher.

"Don't put all your eggs in one basket!"

"Very good," said the teacher, "Now, Lucy?"

"Our family are farmers too. But we raise chickens for the meat market. We had a dozen eggs one time, but when they hatched we only got ten live chicks. And the moral to this story is, don't count your chickens until they're hatched."

"That was a fine story Lucy. Glen, do you have a story to share?"

"Yes, ma'am, my daddy told me this story about my uncle Bob. Uncle Bob was a pilot in Vietnam and his helicopter got hit. He had to crash land in enemy territory and all he had was a bottle of whisky, a machine gun and a machete. He drank the whisky on the way down so it wouldn't break and then he landed right in the middle of 100 enemy troops. He killed seventy of them with the machine gun until he ran out of bullets, then he killed twenty more with the machete till the blade broke and then he killed the last ten with his bare hands."

"Good heavens", said the horrified teacher. "What kind of moral did your daddy tell you from that horrible story?"

"Don't fuck with Uncle Bob when he's been drinking!"

A Real Helicopter Ride in Vietnam

Ya wanna see a real helicopter ride? Check out attached olden photo. This was taken around July, 1969 at the Special Forces camp at Quang Tri, South Vietnam just south of the DMZ. Bobby G. Cormack and I frequently flew our UH-1H Hueys on volunteer sneaky missions with the Special Forces into Laos and North Vietnam. When a SF team became surrounded and couldn't make it to a landing zone we would hover above the dense jungle and drop "Maguire Rigs", 120' long ropes with harnesses, down to them through the trees. The little bad guys would be shooting at us while we were doing this. After the 5 or 6 men on the SF team were in the harnesses, we would hover straight up until they cleared the trees (they hoped!) and then take off to lower them gently and safely to the ground at secure bases several miles away. It required a precise, smooth touch on the helicopter controls to do it successfully. We even rescued SF teams at night this way---even more hairy, by far!

My good friend Bobby G. and I were exceptionally good at this. When we were about ready to complete our tours the Special Forces asked us to train some other Black Widow pilots to do it. So after the training (using sand bags on the ropes instead of people) we went back to their camp for a demonstration. The Special Forces Commander jokingly said, "You trained them. You two should go on the first ride with them." So Bobby G. and I said "Why not?". And we did. The dumb one on the right is Bobby G. The bigger, stupid one on the left is me. The pilots, "our friends", were only supposed to fly around the base and bring us back. Instead they thought it would be fun to mess with us. They climbed to over 6,000 feet and then brought us back down over the Gulf of Tonkin to "troll for sharks" just off shore. We were within feet of the water going about 80 miles an hour while hanging on a rope that looked like kite string. They did ok after that---except for almost dragging us through some barbed wire when they were bringing us back down inside the SF camp. You can just see the tail of the Huey helicopter at the top of the photo. What a helicopter ride!
