Friday, July 28, 1967 -- 12:35 p.m.

Mr. President:

The cables say:

1. De Gaulle is increasingly operating a personal rather than governmental foreign policy.
2. His anti-Americanism grows worse as he estimates U.S. power and influence expands.
3. The French press is almost universally against him on his Canadian performance.
4. The Canadian performance has hurt him politically but how much, we can't say -- notably because it's vacation time in France.

W. W. Rostow
