Pres file

Wednesday, August 9, 1967 -- 6:45 p.m.

Mr. President:

Andy Goodpaster called to report "a very fine meeting" with Gen. Eisenhower on the three points you defined. He will send us a full report.

Gen. Eisenhower was particularly interested in the Momyer briefing on bombing and indicated his interest and satisfaction at the evidence of the "accumulating effect" of transport bombing in the northern part of North Viet Nam; that is, the effect on antiaircraft and SAMs, of the attack on transport targets; and the greater effectiveness of the bombing -- and reduced losses -- due to reduced antiaircraft fire.

I will, of course, file Andy's report with you when it arrives.
