Mr. President:

Herewith the cumulative figures for killed
and wounded that you requested.

W. W. Rostow

172

U.S. FATALITIES IN SOUTH VIETNAM

(January 1961 - September 16, 1967)

Killed	11,022
Wounded or Injured	
A. Died of wounds	1,310
B. Non-fatal wounds	
Hospital care required	44,324
Hospital care not required	<u>39,119</u>
Total Wounded	84,743

Of the 44,324 wounded who required hospitalization, approximately 90 percent, or 39,890, have been or are expected to be sufficiently recovered for return to duty after their period of hospitalization.

Therefore, of 84,743 wounded, 79,000 have returned or are expected to return to duty; that is, 39,119 plus 39,890.
