Mr. President:

Pres file

Subject to your approval there will be two items on the agenda for Wednesday lunch, aside from the usual issues that would normally arise.

1. Sec. McNamara would like to bring along the General in charge of the barrier, General Starbird, to brief us while we are eating. He would then withdraw as we took up other items. The General is just back from Vietnam and has an interesting and important story to report on the changing attitudes of the Marine Commander and Westmoreland toward the barrier.

2. The Radio Free Europe and Radio Liberation issue on which the two Secretaries will be prepared to present their views. You have already had an account of the matter; but I will send up the papers again on Tuesday night.
