27 October 1967

MEMORANDUM FOR MR. ROSTOW

In the last four days we have lost 14 aircraft over North Vietnam:

Date	Type	Target	Cause			
			Ground	Fire	SAM	Unknown
23 Oct	F-105	Kep Airfield		X		
	F-4E	Haiphong RR Yard		X		
	F-4B	Phuc Yen				X
24 Oct	F-4B	Phuc Yen				
	F-105D	Phuc Yen		X		
25 Oct	A-4E	Phuc Yen				
	F-105	Hanoi Bridge (Doumer)		X		
	A-4E	Van Dien Supply Depot				X
	A-4E	Hanoi Thermal Power				X
	F-8E	Hanoi Thermal Power				X
26 Oct	F-105	Hanoi Bridge Canal des Rapides		X		
	F-105	" " " "		X		
	F-105	Unknown				X
	F-4	MIG Cap	X			
	14			5	4	5

We have achieved the following results:

Target	Aircraft	Damage	Assessment
Lost			
Phuc Yen Airfield	4	11 MIGs destroyed or damaged on ground 4 in the air, field is unserviceable -- no operational aircraft.	The deployment of 3-4 MIGs to China has reduced NVN's in-country inventory to 4-5. 2-3 airfields are serviceable --

Target	Aircraft Lost	Damage	Assessment
Kep Airfield	1	Limited damage has been temporarily repaired.	2 limited serviceable. Primary jet operations will probably be restricted to Gia Lam. Restrikes will be warranted as NVN restores fields and uses them to stage China-based aircraft.
Hoa Lai	0	All ordnance on target. 1 secondary explosion	
Hanoi Thermal Power	2	3 WALLEYES hit generator hall. All conventional bombs on target. Lights are out again.	Repair time from previous strikes was longer than expected -- it ought to take even longer this time.
Hanoi (Doumer) Bridge	1	600 feet of bridge out, 2 spans down, 1 span severely damaged.	Dropping of these 2 bridges again should cause Hanoi at least as much difficulty and require at least as much time to repair -- seeding the waters with MARK 36 destructors makes by-pass more difficult.
Hanoi (Canal) Bridge	2	Bridge is down.	
Van Dien Supply	1	Severe damage to 7 buildings. Superficial damage to 3.	Previous strikes on Van Dien targets created high noise level. Attacks on these targets maintain pressure on supplies and their movement in and out of Hanoi-Haiphong area.
Van Dien Vehicle	0	1 MIG in the air -- 2 buildings burning, several others damaged.	
Lang Dang RR Yard	0	40 pieces of rolling stock destroyed or damaged.	"
Haiphong RR Yard	1	All bombs on target, smoke precluded damage assessment.	"
