1.3(a)(4)

Friday, April 5, 1968 -- 7:50 a.m.

Mr. President:

1.3(a)(4)

This [REDACTED] instruction to cease firing artillery at the DMZ may (or may not) be the first response to San Antonio.

We shall follow it closely.

It is coupled, in today's intelligence, with indications of possible imminent attack at Quang Tri, Hue, and Danang, plus continued intensive efforts elsewhere. It would make sense for them to hurry up attacks in the coastal cities while major U.S. forces are relieving Khe Sanh.
