G. F. G.

FG 2

FG 400

Tell Fred Panzer to make a study today of the 36 Presidents and how many members of his own party he had back to 1890.

The percentage of members of his own party he had in each House and Senate -- get it today.

If he had 240 members -- tell me what percentages that was in a House of 380.

I would like to get the 20 major great society bills and show how many voted for them on final passage.
