

I went down to get my ticket today & as usual it is not ready. You see Barry, I really can't explain it to you, they never do anything on time. In the states you call on the phone & an hr. later you have reservations & all is fine. Here you get your ticket 3 mo. in advance, call every 2 weeks to be sure & the day you are to leave they never heard of you & the plane is full & you can't get on. The planes are always late & they don't even announce them. There is only 1 plane out of here a day & they can bump you off cause it is gov't owned. The problems are terrible & frustrating.

but you learn to live with it &
accept it. So you see I have
everything taken care on this
end & will get out in fine shape
& in plenty of time I'LL BE
THERE!!!

I love you & will try to explain
things better to you when we
meet take care & I'll see you

Love ya tots
