*Remember
being here! E. A. Caudel*

May 4/68

Dear Ken -

Have thought of you often these past months but you aren't such a great writer either! - Anyway it's getting closer & closer to August! - Haven't seen any rides on B.M. - do you know yet when you'll be going - Remember if you decide to come to Calif with the gals to meet them instead I am going to S.A. and love it!

In fact I think this is the main reason for my letter - to let you know again how much we enjoyed having you here - It was like you belonged! - I guess because you were so considerate of other people's feelings - This must never be repeated cause I wouldn't want to hurt anyone but after a week with Smokey I'm completely exhausted - Now she's in Hawaii & I have Michelle which isn't bad at all but Smokey going to stay awhile when she comes back & on top of that she's bringing Shelley - I get so "up tight" whenever I envision that I think I'll have a nervous breakdown - Mark's mother has been out here for a month but he been staying at her sisters as we only get together for short visits & they have actually been pleasant We're going down to San Francisco this afternoon. Cal's Gals have bought a lot & are starting to build - we'll have to see the model when

Mata is so needed - Don't blame her at all - She really needs more room & it makes sense for them to buy ahead of rent.

Obviously we aren't on Prot yet. They did move everyone out of those sub standard places & have already torn them down so it was great we didn't have a chance to move into them!

Yesterday Hank was offered the Probation Officer job (he's got so much outside anyway) so it's up in the air either this or the other job for sure - I expect will get quarters when his job changes as both of them are considered priority slots. - Hey did I even tell you our couch came but wouldn't fit in the house - Stairs gather the way - Damn! Peg is Paddy's friend! - Unfortunately for me Michelle stinks so it's time for a diaper change - yuck! Kisses & hugs for Betty, Annie, Anne, Wendy, shells to new folks & they
