

31 May 1999

Dear Dick,

Received your letter with pictures and map. Thanx; brings back memories. I saw Jack Johnson a couple of months ago and he looks fine--hard to believe that picture is 32 years old.

The names on the picture are correct. Major Alford commanded the HOOK Company located at Cu Chi (The Muleskinners). I don't remember the number but will forward it when I find it. Also, I couldn't find a picture of our sign at Battalion Headquarters but did find a picture of McWhorter and me promoting a WO in the battalion conference room. The small photo is a memorial service at Dau Tieng for the Maintenance Officer of the 188th who was killed during a night test flight in the summer of 1967--(Don't have his name--he was a Major).

I do not remember Gary Tobey but we could have done it.

I will send you other info as I find it. Enclosed find a statement you can use--also, please use all the photos as you desire.

MERRY CHRISTMAS

May the New Year bring happiness and peace
