DAU TIENG—A week long siege of a Viet Cong camp found by 3rd Bde, 25th Div, troops southeast of Da Nang, was a key to an expected attack on the Vietnamese located in Dau Tieng by the 101st Viet Cong Regiment. Twenty-eight Viet Cong were destroyed in the destruction of the enemy bastion. Twenty-eight Viet Cong were destroyed in the destruction of the enemy bastion. Over 400 bunkers, 250 two-man spider holes, and 1000 foxholes were destroyed in the spiderweb-like base camp.

According to 3rd Bde Commander COL Kenneth L. Jarrett, the destruction of the Viet Cong camp was a key to an expected attack on the Vietnamese located in Dau Tieng by the 101st Viet Cong Regiment. Eight Viet Cong were killed in an ambush in the area where the camp was located. Eight Viet Cong were killed in an ambush in the area where the camp was located.

In eight days over 30 airstrikes and thousand of mortar rounds were fired into the 900x800 meter entrenchments.

Many bunkers were 10x10x6 feet in size and had a thick cover protecting the Viet Cong who were found in the area.

The first day the camp was discovered, Bravo and Charlie companies of the "Triple Deuces" uncovered 100 bunkers before intense mortar and RPG rocket fire forced their withdrawal. The Air Cavalry unit remained in the area until it was a veritable dust heap.

Returning to the camp, a grenade factory, complete with hand and rifle grenade molds, VC Claymore molds, wooden sandcasting frames were found and destroyed. A cache of rice, a small number of grenades and ammunition, and documents were captured.

Twenty dead enemy troops were found within the camp, in low graves or in the blasted underbrush. Another eight Viet Cong were found in the camp, including a mortar squad that had mortared the battalion command post. An ambush patrol from Charlie Co of the "Triple Deuces" was ambushed and destroyed.

AFTER A WEEK LONG SIEGE OF A VIET CONG REGIMENTAL SIZED BASE CAMP, MEN OF THE "TRIPLE DEUCES" MOVE TO THE NEXT BATTLE.
