

SECTION VIII - Call Signs

Numerous radio call signs were used by helicopter pilots in Southeast Asia during the Vietnam Era. The following roster contains 1012 call signs and was compiled primarily from VHPA membership application forms. During this past year the following updates were applied by Mike and Dianna Law: Phil Chinnery, a British author of aviation books, was kind enough to provide data on many USMC units; the VHPA Historical Committee found a roster of official USARV call signs; at least a dozen VHPA members submitted numerous corrections and/or additions.

Comments, additions and/or corrections are welcome and should be submitted to VHPA Headquarters, ATTN: Directory Editor.
