

6/5/96

BLACK WIDOW HISTORY

Dick Detra is continuing to do an outstanding job of putting together the history of the unit, and finding Black Widows. He needs your input, especially if you were with the unit during the early years as the 188th. Contact him at [REDACTED] if you can help. I am still gathering information on the later years as C/101, so send me anything pertaining to that time frame. Several people have mentioned sending items, but only a few have come through.

VIDEOS

Richard Green has put a large number of our Vietnam slides, photos and home movies on VHS tape. There are still several people out there who have not sent him their material. This is a great way to share your memories with other Black Widows, so please contribute to the effort. Call Richard at [REDACTED] and make arrangements to send him your material. He will copy them off onto tape, then send the original material and a copy of the tape back to you.

ROSTER

I have not updated the roster this year. Work and family commitments put me behind schedule this year, so it was not done. I will try to send everyone a current roster after the reunion. There are always more names and addresses to add after every reunion. Also, remember to send me any address changes or corrections. There have been several people who have moved without telling us, and their mail is being returned to me as undeliverable.

Well, I hope to see as many Black Widows as possible in Santa Clara. Please try to attend, even if for only the day of the mini-reunion!

BLACK WIDOW HISTORY

Dick Defra is continuing to do an outstanding job of pulling together the history of the white and finding Black Widows. He needs your input, especially if you were with the unit during the early years as the 188th. Contact him at 111-1538 if you can help. I am still gathering information on the later years as 111-1538, so send me anything pertaining to that time frame. Several people have mentioned sending items, but only a few have come through.
