

7/4/67

Dear Mom + Dad,

Don't know how long this will be but I am writing to tell you we are going to leave here for awhile and won't be back for about three months. But we will come back to Dau Tieng. I can't say where or when we are going. Two guys, E5 got busted to E-1 for talking about it at one of the Vietnamese laundries. We are needed somewhere else for awhile so I may not write for a little while and don't want you to worry. I have a pretty good idea where we are going but can't say anything. If you want you can write here but I don't know if I will get it or not until we get back. I don't know if they will forward any of our mail or not. When we get there I will try to write and let you know where we are and maybe give you a mailing address to write to.

We have been filling sandbags for the helicopters, we have about a million filled now. We flew to Saigon the other day but nothing exciting to talk about. It just stopped raining a few

minutes ago.

So Greg finally made it home, sure wish I could see him. Guess you showed him the pictures I sent home. He should really enjoy them. Is he really going to come over here? If he wants to his crazy, I sure wouldn't want to after seeing how it is over here. I got the pineapple you sent, also got another letter from you today, got one from Lingu to. She sent some pictures. Sounds like Roger is turning into a Beatnick, sounds like him, but I won't even know him when I get home.

Hope I get that film you sent before I leave here. I've only got three rolls left and they won't last very long.

I am almost done with another roll. These have the pictures of our ships after we got mortared. If Alan buys Greg can he better take it easy with that V8 engine in it because Greg went through a few transmissions and rear ends since he's had it because of hot riding it. And that

Car does have quite abit of power so
tell him not to get on it if he don't
want to spend 60 to 100 dollars for
rear ends and Xmissions.

Today is the fourth of July but doesn't
seem like it, its just another day
over here we still worked as usual.

Be sure to tell Greg I said hi and
I want an address from him so I
can write as soon as he can get it.

Tell him to send his folks address so
I can write to them to. If you see his
folks tell them to write if they find time.

Hope you can ~~send~~ show them the slides
to. Sue will be glad when I can see
them and tell you all about them. I
know you have quite a few questions
about them. Guess Tom and Maquet saw
them to. What do they think about
them? These are pictures I'll never be
able to get again, so I am taking all I
can. I try to take my camera everytime
I fly. I get to see a lot of thing to take
picture of. Well guess I better get to bed
we will have to get up early again so
take care now. Love Ron
