Dear Dick,

I am sorry to have taken so long to get you these pictures. My wife forgot about them and when she forgets something I don't get it done.

I have written on the back of pictures and named all of the people that I can remember. Number 2 in black and white is a picture of WO-1 Gerald Rainy, Myself and Cpt. Addey. We are posing with an aileron from a Caribou that Mr. Rainy and I hit with the main rotor. The Caribou tried to take off between two lines of 30 UH-1s that were all running. He didn't make it.

The color pictures are marked also. They are the only ones that I have from that period. I hope that they help.

Sincerely,

George Charity
