L2 STAR

(First group at Sally)

The advance party from the 101st went to Sally in Jan. 68

"Echo" Company 101st (Recon) Platoon

321st - 1 battery 105mm. howitzer

call sign (Juliet 1) Mike -

On Jan. 31st the V.C. tried to overrun their position at Sally. They penetrated on one side of the perimeter killing several 101st people. It was a sapper attack with the battery leveling their guns using bee hive rounds on the attackers. Over 200 dead VC lay in the wire ~~the~~ as the dawn arrived. They had fought hard and what a baptism in combat.

BW 29 Thullen rescued these guys at some point, Mike remembers calling on the radio for extraction. He remembers our BW now act to this day. He couldn't THANK ME enough for our guys being there for them.

send him something on the unit.
