19/1/78

When the unit moved north to Sally (March 14/15/16/17)
Larry & Jerry Lewis were left at the Company area with a dence and a half.
We were worried about enemy collaborators picking up any papers, letters
etc. after we left. The NVA were known to have written letters to the families
of people in the unit - it had happened before - 603d mail. So Larry
and Jerry were given the task of burning everything incriminating at the
dump. When they arrived at the dump - the vietnamese were there as always
selling Boom Boom. Larry declined and Jerry got some. Afterwards
their pimp on his ^{moped} ~~motor cycle~~ confronted Jerry about paying for the Boom Boom.
Larry held on 15-16 on the pimp while Jerry robbed the pimp
and set his moped bike on fire and took his \$. They left on the last
choppers out. Nothing ever came of it and

We had a guy playing with his revolver. 45 a round was discharged and he later walked into the maintenance tent and was asked why he had a hole in his fatigue pants. Come to find out the round passed (glazed his calf) through his pants and into his right foot between the toes. Who was this guy.
