

Motor Pool
The motor pool had for its ^{helicopter} recovery equipment had one rough terrain fork lift, 5 ton truck, and low boy trailer the part of the helicopter recovery package. It was the only fork lift on base. Rich & Gary were called on at all hours to unload convoys and do numerous lifts for the Army units at Dan Trieng. While unloading convoy trucks carrying beer Rich & Gary would conveniently forget about stashing a pallet out of sight among the rubber trees. Once the convoy was unloaded they would retrieve the pallet and dropped it off at the motor pool. They proceeded to be entrepreneurs. selling the beer to anyone with that would pay their price (.15¢ a beer) E-1 Club was 25¢ a beer. 1st Sergeant DePalm got wind of the scam and shut the operation down because the E-1 Club wasn't making any \$ and the fact that a number of maintenance personnel were stopping by for a ref pack on their way to the flight line maintenance area.

REB - Allen used to hang out at motor pool
