

Base Dump was located on NW corner of Camp Rauer.
Our dump truck was fired on by snipers numerous times.
We had 2 men for guards and 2 men dumped the trash.
A number of base personnel were killed by sniper fire at
the dump - outside perimeter.

~~Ray referred to all of us 18, 19 and 20 yr olds as his
kids. Being in Korea for two years, he was combat hardened
and tried to instill in us the importance of wearing our helmets
and flack vests. . . . no one listened.~~

At E.M. Club our mess sergeant was standing at the bar
bad raping the unit. Top was playing with our unit dog WEB
and jumped all over this guy for worsening morale by verbally
talking down about our unit. . . . Clerks and cooks are hard
to find in NAM. —

Everyone complained about yock itch - Top told the troops to have
Ammons medicated powder sent over by parents or family - jungle
rash was a common occurrence in the tropics

The guy with
syphilis?

Last flight
of the day

Muleskinners brought in supplies - beer soda, fresh meat,
supplies for the P.X. (Company) We also sent shells down after
missions. Officers were given priority to what ever was available
Big time pecking order. Top tried to get Wofford to include E.M., we
were putting our asses on the line too. They went back and forth. Wofford
told Top to take care of the NCO's & E.M. and he would take care of
the officers - Words with McWhorter too. ... along same type of
grievances.
