MEMORANDUM FOR RECORD

SUBJECT: Alpha Company RSOI and Battle Roster for Operation Iraqi Freedom III

1. Alpha Company Spiders completed Reception, Staging, Onward movement and Integration on 8 February 2005. The company sent two soldiers on Advanced Party on 17 January 2005 (CW3 Doug Dickens and CW2 Jerry Emmons) to help receive and re-configure aircraft at Port. The company arrived in mass on 25 January 2005 at Kuwaiti International Airport, and relocated to Camp Buering at Udari. The company dawned the re-designed Spider Flight Patch for the deployment. SGT Edgar Alvarado designed the patch free-hand during a Mission Readiness Exercise at the Joint Readiness Training Center. The patch is oval in shape, and pays tribute to the 188th Assault Helicopter Company (Black Widows), where this unit traces its heritage. The Spiders formed again in May 2004 (the first combat deployment of the Spiders since Vietnam) as a result of Re-flagging due to aviation transformation. The unit, previously designated as the Black Widows of 9-101st Airborne Division (Air Assault), became the Alpha Company Spiders of the 4th Battalion, 3rd Aviation Regiment, 3rd Infantry Division. The Black Widow lineage moved to C/4-101st. CPT Jason Blevins (Black Widow 6 Ancient), with the permission of Mr. Dick Detra (Spider Alumni POC), is credited for maintaining the 188th AHC Black Widow lineage by adopting the Spider gun platoon call sign. He became the first Spider CO of the new era. CPT Blevins changed command to CPT Carl Preciado on 30 July 2004. The new Spider Assault Helicopter Company was generally the same size of the Vietnam Era Gun Platoon. It had ten UH-60L Blackhawk Helicopters and 41 Personnel. Of the 41 personnel, 29 were 9-101st Black Widow combat veterans of 9-101st Aviation Regiment during OIF I. These are their names:
