

4 Aug 98

Dear Dick -

Thanks for the information that you sent to me. It was nice to meet all of you at the reunion.

As far as working on the web page - I will be ending my summer semester the end of August, so sometime in September I will have time to work on it. I should be able to scan the pocket patches you sent and be able to put them on the page.

If you get any additional information, or if there is anything else that you want on the page, be sure and send it to me. If there are any special names, besides the ones on the patch collection write-up, please forward those to me also.

Once I work on this Web Page and get it all set up, I will send you the passwords & then once you get your computer you will be able to go in and add things.

I hope this will help you out. When I get it all done I will give you a call and let you know the web address and you will have to get on the net and

check it out! -

Well, I have to run. I have school
in the morning and Bill is out
flying right now! - (Night mission)

Take care & keep in touch -

Tracey Duggan
