Dick,

I thought I'd let you know that our transformation to 3rd ID is complete, and we're now the A Company, 4-3 Aviation Regiment "Spiders". We've been busy trying to stay busy, but 8 of our 10 assigned aircraft are going through an intensive maintenance reset, so flying is a premium these days. We start full throttle in August with some training with 3rd ID, company change of command (currently scheduled for Augst 16th), and then a training center rotation in September. Soudns like the battalion will deploy in January. Anyways, take care and enjoy the new patch.

Mate & Kill,  
CPT Blevins
