

OFFICE OF THE ASST. DEPUTY FOR CORDS
I FIELD FORCE VIETNAM

16 January 1969

To: Mr. Flanagan
Economic Advisor

At this morning's staff meeting General Peers mentioned the necessity for having a booming economy in the newly secured areas. He had kind words to say about you but suggested that you need more help. I agree.

We do have, however, many people working in the economic field here. These include Agriculture people, certain positions in the Refugee Division and so forth.

Please see me for a discussion of how we might tie all the work of these people together in a better way.
