Mr. Louis A. Wiesner, Director  
Office of Refugee and Migration Affairs  
Department of State - Room 7526  
Washington, D. C. 20502

Dear Lou,

Our conversation last week, though brief, was very enjoyable. It was nice to locate an old friend with whom past experiences had been shared. Since my retirement from AID nearly three years ago, I have lost track of most of those I worked closely with in Vietnam. I hope we will have the opportunity for a more leisurely and unharrassed get-together sometime in the future.

This note is to accompany your copy of a packet of papers from the University of Oklahoma that are being sent to Ms. Taft at the Task Force. I hope you will have time to give them a careful review and if you agree with our approach perhaps you can add your voice of experience to the finding of an acceptable solution for the training of the refugees.

Your copy does not contain the cover letter addressed to Ms. Taft so I would suggest that you read it before taking a position.

Best regards,

*Larry*
