Carl,

Thank you for corresponding and thank you so, so much for the KIA donation! Between your donation and the donations I got at the Rendezvous this past weekend we have enough to buy the first two bricks! Only 30 to go!

I can definitely understand your obligations and the reasons you can't be where you would like to be. Those are very serious responsibilities and **must** come first. Don't ever think that you aren't in our thoughts guy!

I surly hope that this association I've worked so hard to form and get on its feet will be around for a long time to come. All of us deserve that camaraderie and pride that we've been denied for so long and I hope that there will be many more reunions for us to share in.

I've got something for you:

Robert Henderson

( )

We don't have anything on Stephen Davis.

Take care brother and stay in touch!
