4-day Daniel,

Here I am back in Australia enjoying good weather even though its into 2nd month of winter. Always good weather here never goes below 20° or 70° fahr mark. Bit cooler night times but helps you sleep much better.

I must say the 75th Ranger Regiment Reunion is the best I have been on and visited a few Special Force Association and Special operation Association Reunions so know what I am saying - NO BULLSHIT. Reason: so much participation with the young Rangers of 2nd Battalion 75th Ranger Regiment. I came early to the Reunion so as to visit 2bn. to see some training Captain Dan Wilson was to be our host.

On the 17th we went to the Unit to observe Physical Training (0600 hr.) The CSM was warming up the NCOs for a Run when we arrived there watched for a while then on to the GYM. I was amazed to find out the US Army does not have a P.T. Corp or Instructors. I served in the British Army Physical Training Corps before joining Australian Army and after instructing Parachuters at SLAW. 1957 I was one of the Original P.T Instructors when Australian Army started their own P.T Staff. After asking a few questions to LTC MCKEYSIE and Cpt Dan Wilson. They asked me to stay and lecture them for 2
