

1 July 1995

Hey Dan,

Sorry I haven't answered the call as of late, but I have been bussier than a one legged man in a butt kicking contest.

I started a new job in May with the National Parks Service. Added to the fact that I have been in a rolling fire fight with the V.A. over a rate increase since February, and you have little time to do much.

I didn't get to make it to St. Louis for the reunion. Don't have the leave time accrued yet. But I hope to make it to Benning this month.

Enclosed is some information that you may or may not need. It is all that I have at present. But I may be able to come up with more later, as I have requests out to the families of three men who died in 1969-1970, Bill Squires, Mike Kiserden, & Keith Parr. I requested any orders they may have kept along with any photos they are willing to give. Plus through the Archives I have requested after action reports & assignment orders for Ricardo School RVN & unit orders.

As I receive information I will forward
it to you with all haste.

Well guy I must end this dispatch and
attempt to get some work done around this
place.

Until later
3-2 BRAVO - OVER

Lester
