RE: KIA LIST PER OUR DISCUSSIONS

After reviewing the listing in the last Assoc Newsletter of E/20 & C/75 KIA's I put the attached info together.

Richard Bucille is on the wall in DC and was in E/20 & C/75 in the first part of my first tour.

*Early*

The picture is one that Bones Benton sent me a copy of that was a sign on our TOC Bunker in An Khe in mid-1971 just before I ETS out of Nam back to the world.

Hope this helps out...would hate for some of our guys to not be included...Rex and Gordy have bricks on the walk at our Memorial in Benning...I'm trying to get funds together to get a brick in the walk for Rick Bucille...never really knew Ed Scott that well..

Take care, thanks for the hard work...will get money in for my membership and contribution to the memoraiial names as soon as I can.

Worth,

The KIA project is about to come to an end without all our names submitted. I need those four names. Either give me a point of contact for them, or just send me the names and I'll do the verification on them. I have to get this completed.

Thanks.
