

Richard Ehrler

Here is the list I am currently working on for your unit. If you find more accurate or complete information on any of these guys or you have more names to add, update my info listing and send it back. I have added more info to this list than I sent to Roy Boatman in order to help you find additional names or correct previous information.

I have added panel and line numbers to these listings. If any of your people want to get rubbings from the wall, these are the locations on the wall where the names can be found. Example P33W L17 = panel 33 west line 17.
