Jesus Rodriguez-Roble

Jesus,

Thank you, my friend, for your honesty and also for your dedication to our cause, these being only two of the reasons why I chose you. Like you, I too believe that our Association will be successful and that it will bring about a great healing for us. There are many of our brothers that need our help and I will continue to provide that help in any way I can.

Jesus, please understand that in my eyes there is no apology necessary here, unless of course, you or anyone can apologize for the events that life can bring us.

I wish you strength and success in your endeavors and hope that as time passes things will become easier for you. I honestly don't know that I could stand up under the strain of your responsibilities and I admire you and wish the best for you.

I'll be in touch, my friend, tomorrow's another day!

Sincerely,
