The shake down for the company was the former SF camp of Plei Do Lim. There we also conducted a combat parachute jump into "VC Valley" east of the camp in November 1967. The 12 personnel who jumped were entitled to wear combat jump star on their wings. I was one of the jumpmasters. I was also the opns officer jumpmaster and planned the operation. Mike Malone also went on the jump and on some of the patrols. He led from the front.
