1. Although Indo military leaders may not for time being seek U.S. assistance for Indo military forces, we believe on basis your reporting that if serious insurgency situation should develop we could anticipate emergency requests for spare parts and/or replacement for equipment previously supplied under MAP, as well as other equipment.

2. In order to anticipate more precisely what Indo requirement might be if security situation deteriorates suddenly into insurgency, we need information regarding state of readiness Indo equipment and what items would most likely be requested. We agree completely your view we should not offer such assistance, and main purpose this message is to be prepared for possibility of urgent requests.
