PP

Director of Health

South VietNam

Dr. Dang Ngoc Trong

59 rue Chasseloup Laubat

Saigon

Monsieur

I have the honor to reply to your letter No. 423 dated
17 September 1954. Our Sanitary Engineers ^{are now} have been surveying
the Refugee Camps as you requested.

*When the survey is completed
we will forward a complete report to you; however
it appears the sanitation in many camps ^{should have} need closer supervision.*

The need for more DDT spraying and the use of a disinfectant
(creosol) is quite urgent. Many places do not have the creosol
you requested be sent to the camps.

Paul Q. Peterson

Chief

Health and Sanitation Division
