

600 Refugee Relief
Sec.

All Division Chiefs
Special Deputy for Refugee Affairs
Refugee Program Coordination

18 Sep 1954

In the coordination of the refugee program, we have followed the practice of referring practically all incoming telegrams for action by Divisions. I believe in every case the Divisions have either gotten concurrence from this office or have indicated for my information the replies.

I should like to ask, however, that in addition, at least a copy of the draft be sent for our files. We are finding that in some instances we are having difficulty in recalling action taken when certain follow-up questions have arisen.

I hope this is not an imposition, and if it does create any particular difficulty, will you please indicate what this problem is in order that we may consider an alternate solution.
