SUBJECT: Request for restitution of one of 2
Station-Wagons made available to the
American Mission.

I beg to ask you earnestly to insist that the American Mission returns to the AEA Section of our Directorate one of the 2 station-wagons loaned to the Mission since over 2 months (VN-1035 & VN-1175).

This restitution will allow my Service to execute without long delay various AEA programs which have been intensified since the creation of Refugee Service.
