**ICEM apparently confused with UNREP by Harnett. UNREP never discussed and no intention convey impression transportation costs south Vietnam persons would be borne by FOA. Smith invited Harnett's attention section 8 NIA and explained ICEM has extended activities to VE with office in Hongkong. Suggested possibilities be explored ICEM provide transportation persons processed south Vietnam.**

**Because world situation focused on courageous flight thousands Vietnamese from Communism, strongly recommend United States find means finance transportation token number for whom assurances already arranged by voluntary agencies. In the struggle for NIA these people need spiritual preservation otherwise are worthless to NIA due to restrictive provisions of legislation which mainly benefit Europeans and Cantonese Chinese.**
