

Use of Refugee Labor
Use of Refugee labor is a
help to the Refugee Program. We
can do various public works jobs
with Refugee labor where it can
be used effectively, and in such
cases I think we ought to do it
as a help to the Refugee Program.

In working in and near
Refugee areas we should keep this
in mind.

(We don't need Refugee labor,
and can usually do better without
it, but whenever we can use it to
fair advantage it should be up to
us to give it a whirl.)
