In Bui Tieng, a suburb of Bien Hoa, nearly 1,000 homeless refugees are staying in tents, shelters, school buildings and laying mats on the open ground any place for temporary living quarters. Using mostly Landrover's a three wheeled vehicle, refugees and homeless arrive from bombed out, burned out and shot out sections of Bien Hoa and adjacent villages.

In Bien Hoa area, the refugee situation is not so much of a problem as in many other areas of the country. True these people are homeless at the moment; however the majority have friends and relatives also living in Bien Hoa area in which these people will stay with. Until these relatives and friends are located they will stay in the refugee center.

Another different view of the Bien Hoa situation is most of these people have jobs in the civilian sector of town or on nearby Bien Hoa Air Base and Long Binh Army Post, which means these people are productive in the community and needing only limited medical, food and clothing as compared with other parts of the country. Fresh water is brought to the refugee center by the U.S. Army twice a day and stored in large rubber tanks.
