LOCAL GOVERNMENT AND RURAL CONSTRUCTION: tax exemption for
commodities for self help projects;

Republic of Vietnam

Ministry of Finance

No. 2415-BTC/TV/TT

Saigon, Feb. 10, 1966

FROM: Commissioner for Finance

TO: Province Chiefs and Mayors throughout the Country

SUBJ: Rural Construction's Request for Exemption from
Proportional Tax on License* and Production Taxes**
on Material Supply

The Rural Construction Program has anticipated the procurement of requisite materials, at each New Life Hamlet, within the limit of funds granted (maximum VN\$75,000) so as to realize Self Help projects under state supervision.

In order to simplify the procedures for rapid implementation of the above mentioned programs, the Directorate General of Budget and Foreign Aid has agreed to exempt the Self Help Projects from the price consultation.

In compliance with the Directorate General of Budget and Foreign Aid proposal, and also to assist provinces in realizing Rural Construction Programs, the Ministry of Finance agrees to exempt the supply of materials for the above mentioned Self Help Projects from the proportional tax license and 6% production tax.

No. 3519-XD/3

May 25, 1966

SUBJECT: Implementation of the 1966 Rural Electrification program

REF.: - Postal Message No. 0990/XDWT/332 of the Ministry of Revolutionary Development, dated Feb. 24, 1966
- Memo (draft) No. 163/XDWT/33 of the Ministry of Revolutionary Development, dated Feb. 18, 1966
- Postal Message No. 3515-3516-3517-3518/XD/3/BD of May 25, 1966 of MRD.

- I. The present Memorandum is intended to define the procedure of implementation for the Rural Electrification Program at 30 different sites in national and corps priority provinces. The planning concerns the installation on each site of a 30 Kw generator to be supplied by the American Aid for the first stage, and later on, if any site wishes to develop its network, more generators will be provided next year.
- II. Selecting sites for electrification - Based upon the criteria defined by the first referenced postal message, the provinces have already sent to the Central Committee for Rural Construction their proposals concerning their selected sites that have been approved by their Tactical

Zone and Tactical Area. Recently the Rural Electrification Committee has made a survey of each of these sites on the spot and the Ministry of Revolutionary Development has already disseminated its decision to approve the sites stated in the third referenced postal message.

Before the construction of the plant starts, if a province, due to very special reasons, wants to propose a change of site, it should immediately notify the Ministry of Revolutionary Development in order to enable the latter to take an appropriate decision.

- III. Implementation Procedure - The construction of power plants will be taken in charge by local authorities and province Public Works Services, to which funds are allotted, including the operations concerning the installation and equipping of low-voltage networks (making and placing of electric poles, service pipe) according to technical blue prints and under the supervision of Vietnamese and foreign technicians. All these works will be carried out under the Government management system.
- IV. Plant equipment - Generators will be transported one by one to the sites. After the construction of a plant is completed, the installation of generators, the equipping of the plant, mechanical tests and other technical operations will be handled and assisted by Vietnamese and American specialists.
- V. Operating electric networks - The provinces will recruit on the spot for each site 1 technician and 1 mechanic right after the construction of the plants has started. With the assistance of local Power Services (if any), provincial Public Works Service will assume the task of concentrating the electricians and mechanics available in their related Tactical Area for 3 months training in technique about operation and maintenance of generators for limited maintenance. After their training these technicians will run the power plants and will be responsible of their respective electric network.

VI. Management and exploitation - Each plant, after its completion, will be immediately transferred to local authorities which will directly manage and operate it. As these sites are not large and will have an electric network, for the first time, there may be some difficulties in the management and operation of power plants. The Central Committee for Rural Construction has agreed to provide support during the first 6 months, starting from the first day of operation, for:

- a. Salaries for 1 electrician and 1 mechanic
- b. Monthly supply of fuel

This fund will be allotted to each province only after the achievement of the operation, and transfer to local authorities.

After the period of support by the Central Authority, the localities concerned will take charge of the above operation on a completely self-supporting basis.

VII. Electric fees - Beginning immediately with the operation of the local power plant, the local Managing Committee will collect electric fees from consumers on the basis of half the official rate. After six months, the sites will collect fees at the full official rate, fixed according to local conditions, in order to be able to cover all the expenses involved by the hiring of personnel, the monthly purchase of fuel, maintenance expenses, procurement of spare-parts, etc.

For careful and reasonable management and operation of power plants the provinces will provide guidance in the organization of a Rural Electrification Committee for each site, which may be composed of:

- 1 Manager (local government representative)
- 1 Assistant Director (to be elected by the local population)
- 1 Treasurer (to be elected by the local population)
- 2 Controllers (to be elected by the local population)

TABLE 1. SUMMARY OF THE DATA FOR THE RURAL ELECTRIFICATION PROJECTS

This committee is responsible for the supervision of operation, exploitation and management of the local plant. All the accounts relating to collection of charges, for electric service and to payment of expenses should be carefully noted, one by one, justified by authentic receipts, invoices, vouchers, and approved monthly by the district and provincial authorities. Accounting books should be also kept at hand to be explained and stated clearly to the control and survey groups from District, Province, Zone, Area and the Central levels.

Service wires from main line to offices and private residential homes which use electricity should be paid for by the users. As the main objective of the Rural Electrification Program is to bring light on a priority basis to the rural population at the lowest cost possible, the electric current provided to government organizations should be reduced to the minimum. Moreover, in order to avoid excessively high calculated official rates in comparison with other places having more powerful generators, the local Managing Committee will only consider offering free electricity to organizations which are considered essential public services, (street light, medical stations, public maternity-hospitals, information offices, etc.)

VIII. Maintenance - This is a very important operation. Engines must be maintained in good condition in order to obtain the expected period of service. Without this special care, mechanical troubles will happen after a short time of use. For this purpose, 4 mobile teams of maintenance specialists, consisting of 2 persons each, will be organized in 4 large provinces, with favorable conditions, such as an important Service of Power in Vietnam, or a Public Works Service. They will come regularly to different sites for periodic maintenance demonstrations and to give explanations on the spot concerning the operation of power plants. Instructions in detail concerning the training, handling, as well as the distribution of duties of those teams will be issued later after the Rural Electrification Committee has made a careful study on the matter.

IX. In case electricity is brought from province capital

cities by the Directorate General of Power in Vietnam instead of the Rural Electrification Program, or due to a particular reason related to local security conditions, and according to proposals made by the province, Tactical Zone and Tactical Area concerned, the Central Committee on Rural Construction may make a decision to withdraw generators in order to transfer them to other places where an urgent need for electrification exists.

LOCAL GOVERNMENT AND RURAL CONSTRUCTION: civic action by students:

Office of Field Operations Operational Memorandum No. 107-66

June 4, 1966

TO: All Regional Directors and Provincial Representatives

FROM: Leonard Maynard, Acting Associate Director
for Field Operations

SUBJ: 1966 Summer Activities Program

The 1966 Summer Activities Program is a youth civic action program which is being jointly sponsored by the Ministry of Education and the USAID. The program is similar to the 1965 Summer Youth Program except that it will be directed primarily at high school students in 33 provinces and the cities of Saigon and Danang (see Attachment A). Major activities will include:

1. approximately 300 work camps of two week duration through which students will work on small construction or repair projects for schools, roads, bridges, latrines, wells, and refugee housing;
2. youth leadership training seminars to teach group dynamics, leadership techniques, and organizational procedures;
3. technical training courses in the fields of health and sanitation, community development, and recreation and education;
4. a publicity campaign including radio broadcasts, distribution of posters and brochures, and publication of a newspaper;
5. musical/cultural groups to entertain people at the village and district levels and men in military camps; and

6. a national seminar and work camp.

Anticipated involvement in the program is between 10,000 and 12,000 young students. The budget for the program is 23,026,020 piasters...

I. Province Management Committee

The basic operational unit of the program is the Province Management Committee composed of young teachers and youth leaders in each of the participating provinces. The responsibilities of this committee are as follows:

a. This committee should first establish an administrative headquarters in its province and recruit leadership personnel for the program. The Ministry of Education has agreed to release from examination grading responsibilities two young teachers per province to work on the program.

b. This committee should prepare two programs and budgets--one for the month of June and another for the remainder of the summer.

The budget for June should include primarily administrative expenses to finance the establishment of the program and recruitment. However, if projects are planned for this month, material costs should be included in the budget. The primary purpose of the June budget is to expedite getting initial funds to the province.

The budget for the remainder of the summer should include in detail administrative and project expenses. Building materials which cannot be supplied by the province or USAID and are needed to realize planned projects may be purchased with program funds. The Ministry of Revolutionary Development will not provide these funds.

c. Before each budget and program is submitted to the Saigon headquarters for approval, this committee should secure the signed approval of the Province Chief and USAID provincial representative.

- d. This committee should implement the province program, submit project reports to the Saigon headquarters, and prepare province vouchers and financial statements.
-

OPEN ARMS (chieu-hoi): expenditure procedures and revenues

SUBJ: Use of Open Arms Rural Construction Budget for
FY 1966

REF.: - Decree #662/TTNT dated April 24, 1965 of the
Prime Minister's Office
- Circular #28/TTNT dated April 24, 1965 of the
Prime Minister's Office
- Minutes of the Meeting at the DUBFA on April
30, 1965
- Circular #982/BCH/HC/19 dated June 15, 1965
of the Chieu Hoi Ministry
- Decree #138-ND/XDNT dated Jan. 26, 1966 of the
Office of the Chairman of the Central Executive
Committee.

Dear Sirs,

In order to facilitate the implementation of the Rural Construction Program more effectively in FY 1966, the Rural Construction Budget implementation has now been further simplified.

Moreover, the funds for returnee food and clothing allowances have been increased because of the up-trend of the cost of living.

The above-mentioned changes have been given to your

offices through the discussions on the Rural Construction Budget in your provinces or by other documents which have been distributed.

To facilitate the implementation of the Open Arms Rural Construction Budget, this Ministry would like to summarize the principal procedures in this document from both aspects: expenditure procedures and the price rate of the Chieu Hoi activities.

I. EXPENDITURE PROCEDURE

1. Characteristics of the Rural Construction Budget

- The Provincial Rural Construction Budget is a supplementary Budget of the Province
- The Province Chief is the Disbursing Officer having the full authority of utilization of the Provincial Rural Construction Budget within the limit of funds authorized
- The Treasury Service Chief is the Accounting Officer
- A Liquidator will be designated by the Disbursing Officer (usually it is the Chief of a technical service)
- The Rural Construction Budget is carried out in accordance with procedures applied for the Provincial Budget with the following exceptions:

a. Advance Fund:

If necessary, an advance fund may be established for prompt payment by cash or check.

(On Open Arms Program: Depending on official requirements, a unique advance fund may be established for routine activities such as feeding, clothing, rewards, reinstatement allowances for ex Viet Cong returnees, etc. It is

not necessary to have an advance fund established for each of the activities).

b. Transfer of Funds:

The transfer of funds from one Article to another within a Chapter does not require approval from the Central Committee on Rural Construction, however, it must be concurred in by the Provincial Rural Construction Council.

(The Open Arms Rural Construction Budget consists of only one Chapter; therefore the transfer of funds on Open Arms activities lies in the decision of the local authorities depending on their needs, and within the limit of the authorized Budget. Approval from the Central Agencies is not necessary).

Within reference to the Decree #138/ND/XDNT dated Jan. 26, 1966 of the Office of the Chairman of the Central Executive Committee, from now on the transfer of funds from one Chapter to another Chapter or from one item to another item does not require approval e.g. from the official of the Directorate General of Budget and Foreign Aid subordinate to the Office of the Chairman of the Central Executive Committee, if approved by the Construction Ministry.

c. Services Rendered:

Per the above-mentioned Decree, from now on services rendered which are:

- Not over 50,000\$ - Price Survey is not required
- From 50,001\$ to 100,000\$ - Price Survey is required
- From 100,001\$ to 500,000\$ - Price Survey and Contract are required.
- From 500,001\$ to 1,000,000\$ - Call for bid is required
- Over 1,000,000\$ - Open bidding is required,

As for the price survey, in case three enterprises are not available, administrative certificate may be established to enclose to the justification vouchers.

All contracts do not require approval from the Central.

2. Provincial Open Arms Rural Construction Budget of 1966

For 1966 the establishment of the Provincial Rural Construction Budget has been carried out by the Central Rural Construction Council since January. The Central Rural Construction Council has made surveys on the needs in each province and approved for the allocation of supporting funds on the spot.

According to the program scheduled, the Central Rural Construction Council will make another survey at the end of May 1966 to solve the immediate needs of each province.

In case provinces which have a returnee input which exceeds the number estimated, the Central Rural Construction Council will make the immediate consideration to solve the problem upon receiving suggestion from the provinces concerned. This gives the Open Arms operation a steadfast and accurate response in its financial aspect.

The total Provincial Open Arms Rural Construction funds for 1966 are 104,868,000\$VN. *

The Directorate-General of Budget and Foreign Aid will gradually release the approved funds to the provinces so to facilitate the implementation of the activities right from the early stage of the year.

* The fund of 104,868,000\$ was originally planned. Bien Hoa prov. has cut off 10 returnees from its estimate and an amount of 60,000\$ has been withdrawn from its budgeted fund. Thus the present fund is only 104,808,000\$. This fund is flexible as to the progress of the program.

II. PRICE RATE AND PROCEDURES FOR THE JUSTIFICATION OF OPEN ARMS ACTIVITIES

1. Price Rate for Activities.

The price rates for routine Open Arms Activities fixed in Circular #982/BCH/HC/19 dated June 15, 1965 are still in effect with the two following exceptions for:

a. Feeding ex Viet Cong Returnees Price Rate

Due to the up-trend of the cost of living, the feeding price rate for each returnee at the Open Arms center, which was from 18\$ to 20\$ a day depending on the Region is now increased to 24\$ a day for all the Nation (ref. Postal Message #0758/XDNT/331/BD dated Feb. 4, 1966 of the CRCC).

b. Price Rate for Returnee Clothing

Increased from 300\$ to 500\$ for 2 suits of black or white clothes.

2. Procedures for Justification on some Types of Open Arms activities

The procedure for justification of Open Arms Activities fixed in Circular #982/BCH/HC/19 dated June 15, 1965 is still in effect with the following additional observation and changes for a number of activities:

a. Returnee Travel Allowance

For 1966 the fund for returnee travel allowances in the Open Arms campaign has been estimated in a separate item, not like in 1965, in which travel allowance funds were included in the Open Arms campaigning item.

Returnee travel allowance remains 80\$ a day

including feeding at the new rate at 24\$ a day. (Ref. Decree #10/PTT/PDUCH/HC/18/QD dated Jan. 23, 1965). There is no maximum limit for travel allowance because the time required for a returnee in personal contact activity in a VC controlled area varies and cannot be predicted.

Thus in case a returnee is on temporary duty for one month, the travel allowance for the month should be 80×30 , or 2,400\$. For example, 1/5 of the number of returnees who come in are sent on travel duty; the budget therefore should be estimated for each Quy Chanh as: $\frac{2,400\$}{5} = 480\$$

The amount of 480\$ or (320\$ + 160\$) shown on the budget estimates is only an estimated amount which does not mean to limit the number of days which a returnee should be on travel duty each month (Ref. Circular #0758/XDNT/331/BD dated Feb. 4, 1966 of the CRCC and Routing Slip #434/BTLC/CH/SQT/PG dated Feb. 11, 1966).

Justification for Open Arms cadre sent on travel duty should contain the official order or mission order approved or countersigned by the Province Chief, certifying date of departure and return.

b. Reward for Weapons

The reward rate for weapons fixed in Decree #0144/PTT/PDUCH/HC/18/QD dated Sept. 18, 1964 is still in effect.

A receipt for the weapon should be enclosed with the justification document and should be issued by the agency which received the weapon and stored it, e.g. the local military Sub-Sector for those returned in the GVN area. Some who returned to units of the allied forces (U.S., Korean, New Zealand) have encountered unjust conditions due to the non-issuance of receipt for their weapons, which the allied forces keep as war booty. In order to maintain the returnee privileges the Open Arms Chiefs should explain to

the friendly units to issue receipts for the weapons appropriately so that payment of rewards can be made and related problems avoided.

Usually when a returnee brings in weapons to any province, that province should establish the procedure for reward. However, under certain circumstances, when the returnee is immediately transferred to another place such as to the National Open Arms Center, a procedure may be established for the payment of reward by the place where he has been transferred to. Necessary documentation includes:

- Legal receipt for the weapon issued by the agency which received and stored the weapon
- Certificate from the concerned province certifying subject has not been paid for reward

The National Open Arms Center should inform the province concerned immediately upon payment of the reward.

c. Reinstatement Allowance

In contradiction to the former procedures, from now on returnees who have been transferred to the National Open Arms Center may request their reinstatement allowance to be granted right in Saigon, in case he does not want to return to the province where he was primarily received. Since the returnee is authorized to receive reinstatement allowance only once, the National Open Arms Center should notify the province concerned immediately when payment is made to the subject.

III. MISCELLANEOUS

With reference to Postal Message #1045/XDNT/33/RD/K dated Feb. 15, 1966 of the Central Committee on Rural Construction, you are requested to forward to this Ministry

The PsyWar Commissioner should consider these requests after consulting the Disciplinary Council.

CHAPTER V

Provisions on Reclassification

Art. 14 - All cadres including the present District PsyWar cadres recruited under the salary of the Decree #319/CDV/NV/QD dated Aug. 14, 1958, the Motion Pictures contract personnel and the Returnee Armed Propaganda cadres, are classified as PsyWar cadres and are controlled by this specific statute, and as decided by the PsyWar Commissioner.

Art. 15 - All cadres mentioned in Art. 14 shall be under the new salary statute with the two following criteria for benefits on basic salary, family allowance determined in Art. 15 and 16 of the General Statute, effective Nov. 1, 1965:

1. BASED ON FORMER RANKS:

Group I	Group member; Motion Pictures Contract Personnel; Armed Propaganda Cadre, Asst. Squad Leader; APC, member; District Cadre are classified as PsyWar Cadre Grade 1.
Group II	Group Leader; Armed Propaganda Cadre, Asst. Platoon Leader; APC, Squad Leader; Cadres of special ability are classified as PsyWar Cadre Grade 2.
Group III	District Team Leader; Armed Propaganda Cadre, Deputy Company Commander; Armed Propaganda Cadre Platoon Leader; Chief Section Cadres are classified as PsyWar Cadre Grade 3.

Group IV

Provincial Team Leader, APC Company Commander are classified as PsyWar Cadre Grade 4.

2. BASED ON THE SENIORITY IN THE SERVICE:

After each three years of seniority in service the cadre will be given a one step increase, and the seniority will be retained.

Service seniority for the step increase mentioned above is based on the total years of seniority in service excluding the period of grade promotion. Each promotion to the next higher grade is considered as two years.

Military seniority in service will not be applied for the step increase, it should only be used for retroaction in the yearly promotion.

After being accordingly classified in the ranks and service seniority as aforementioned; cadres who have diplomas will be classified at least in Grade 2 or Grade 3 (for those having High School Certificate, 1st and 2nd Baccalaureate degree), as determined in Art. 4 for new recruited cadres having diplomas or its equivalent.

Art. 16 - After being classified under the new salary, should the total salary of a cadre be still lower than his former one, he will receive a supplementary payment for that difference until he is promoted to the next step at which the total salary is equivalent or higher.

Art. 17 - Non-payroll staffs presently serving at the Ministry of PsyWar who wish to become PsyWar cadre should turn in their applications within two months after the issuance of this special statute.

Art. 18 - A Special Committee will consider the applications mentioned in Art. 17 and suggest changes in terms of the budget capacity and the work requirements according to the criteria set by the Committee.

Art. 19 - All previous provisions in contradiction with the present Decree shall be ipso facto nul and void.

Art. 20 - The Commissioner General for War and Development, the Commissioner for PsyWar and the Assistant at the Office of the Chairman of the Central Executive Committee shall carry out this Decree as far as their respective duties are concerned.

This Decree shall be published in the Official Gazette of the Republic of Vietnam.
