The Duty Staff Officer is my personal representative for the period that he is on duty and carries the authority as such

2. I expect the Duty Staff Officer to consult me before taking action but if conditions do not permit this to occur, he is to use his initiative and inform me as soon as possible after taking action

3. I am to be informed by the quickest or most convenient manner - personally, by written or verbal message (preferably telephone), by voice pipe or telephone

4. In deciding whether to call me or not you are to bear in mind that I will NEVER object to being called. I would rather be called half a dozen times unnecessarily than to miss one

Important call. I will never be rushed to a Duty Staff Office for calling me unnecessarily but I will be most upset if I am not called for a matter which turns out to be important. In other words If In Doubt Call 176.

5 In any force, there will always be inexperienced Captains and Officers of the Watch. Do not hesitate to check them if you consider a dangerous situation is developing. This will call for constant alertness on the part of the Duty Staff Officer.

6. Regarding Air permits, I would like to see all signals before they are transmitted. If Air does not permit, I am to see it as soon as possible. Remember a permit I receive.
