Member was crewmember in USS FRANK E. EVANS (DD-754) involved in collision with HMAS MELBOURNE. Circumstances surrounding the death of this member are uncertain. He was seen aboard HMAS MELBOURNE shortly after the collision and was dead at that time. The white foamy material filling the oral cavity and the well cleaned appearance of the lacerations of scalp and legs indicate exposure to water and probable death by drowning.

Member was crewmember in USS FRANK E. EVANS (DD-754) involved in a collision with HMAS MELBOURNE. USS FRANK E. EVANS was cut in half with the forward section sinking within seven minutes. Member was initially declared missing by COMASWGRU ONE message 030714Z JUN 69. Intensive sea and air rescue effort began immediately after collision and extended for 14 hours in a glassy sea. Following cessation of search activities, COMASWGRU ONE message 031412Z JUN 69 declared that conclusive evidence of death existed in the case of those members originally reported as missing.
