

S T A T E M E N T

29 March 1971

On 20 February I saw aircraft 66-700 make a forced landing in Laos due to enemy fire. The aircraft was on fire after it hit the ground. We started to circle over the downed ship and I observed two people exit the right side of the aircraft and run into the woods. I also saw that the left pilots door had been jettisoned.
