Sir, Your revelations pretty much leave me dumbfounded. Some time back, Jan or Feb, a *p member reported he traveled to RVN and "implied" he had contact with Phan Thi My NHUNG, reportedly (1965) Garwood's girlfriend in Danang. The world gets smaller every year, but not necessarily any more understandable. I think it's absolutely humorous, that Be is a hotel man. He sure gets around in the Viet-My circle. I'll be off the board for about 5-6 days. The wife and I are going to take a short cruise up the Rapahannock and other local culture. We live in Chesapeake, VA.

I certainly appreciate your responses. Guess I'll harass HQMC and DIA on the release of some FOIA documents I requested last Aug. Would like to see Eisenbraun and Sparks put to rest. The VC that the documents were taken from most probably was a PW camp guard, and may well have been escorting Sparks at the time of his demise - along with Sparks?? Just a thought.

Still am looking for a LBN study I put together in 1971.

Have a good holiday and always take care

Respectfully Ken
