OUR TOP PRIORITY

PAGE 01/02

Hi Joe,

I hope this is dark enough for you to read...??? I need to change my printer ribbon already, seems like anytime I do anything with a graphic on it, it wears down right now...

This is the print out of both Paul's message to me this morning, in reply to my message to him, and then my reply to his reply to my message...(DUN" I YOU LOVE THAT SENTENCE?) How Literaturally correct right? Ha, ha... ;+)

What did you think of the article from this AM's paper? Dolores calling the Cop Chop vehicle the PADDY WAGON??? I was really laughing over that one.

Hopefully this SMALL BIT of info on Kerry, will be helpful to you and your "research" buddies, and Paul would love to hear what you might come up with, as he is trying really hard to halt any reelection of Kerry there... and has a newspaper editor / friend who is willing to help if he comes up with anything that might work...

As you can see, Nov of 68 to April of 69, geeze a whole five months in country and three times hit... some kind of hero huh? Not in my eyes that man isn't...

Not when he caused a upsurge in torture from his activities back home here for our POWs, and those still in country...fighting...

Well that is about all I have for now, gotta get busy and type today, the past two days, have been having some problems with my fingers, getting numb and tingling, so today I am going to try again to hit the keys until I catch up.... fun? ;+(NOT... but necessary? YES ;+)

Hugs, and stuff to you, Chesai...

Chesai

Paul's wife's name is Dale!

Good Morning Marsha

Sounds as if you really gave CNN hell! To say the least. Good job! Maybe they will report that it is still an active issue.

As for Kerry... well he was with the Coastal Sq. Coastal Division, 11 and 13. U.S.N.R. Tour of duty: Nov 1966 - April 1969. "Supposedly" he was hit 7 times which bought his way home...would "love" to know the extent of his injuries... (grin)!

→ If your friends (Joe Gillaspie) finds out anything... sure would appreciate them sharing the info.... I also will do the same. ←

I am going to upload all the files I have on "Reunions" for you. When I see some of the new ones... I will upload those also. What I did last time was I used M-Files to show the reunions the same way I would use a collection, except I put a menu first, so the user could pick and choose what branch to view... hope it works as well for you...

Well Marsha, I better get moving... Hope you and Dale are both doing well... and all the "stuff" coming at'cha!

Hi Paul,

Sounds as if you really gave CNN hell! To say the least. Good!
Maybe they will realize that it is still an active issue.

Love did our best of all the nerve...they have... the slicks...

As for Lenny...well he was with the Coastal Sq. Coastal Division,
and in USNIA. Tour of duty: Nov 1968 - April 1969. "Supposedly"
was hit 3 times while brought his way home...would "love" to know the
extent of his injuries... (prince)

She will be out to find out, thank you again for the info...

If your friend (Ice Gillespie) finds out anything...sure would
appreciate them giving the info...I also will do the same...

I am sure they would be happy to share anything they might find out.
and I definitely know you would do the same Paul... you are that kind of
guy...

I am going to upload all the files I have on "Reunions" for you.
When I upload the new ones...I will upload those also. What I did
Marsha was I used Maximus to show the reunions the same way I would
show a bulletin, except I put a menu first, so the user could pick to
choose what branch to view...hope it works as well for you...

Thank you very much. I was mostly interested as I saw the US-
Sagitt mentioned it there as well, and that was the main ship that Gale
was assigned to. Of course because of his training he and
about three or four other guys who went to BUDS training, were lent to
other ships for support for the SEAL teams, so he was on about four
other ships, sometimes for a month, sometimes just a week or two...

Spent one 24 hour period in a wetsuit waiting for a goahead that
never came... would have driven me bonkers... geeze...

Thank you again Paul, and we will talk again soon. Love to all there
Marsha
