

Re: Arlo Gay sightings.

1. Several reports establish a common location for:

Xã Đông Yên,
Chợ Đông Yên,
Công Sở Đông Yên,
cầu tàu Xẻo Rô
Chợ Xẻo Rô
đồn Hải Quân Kiên An

2. That common location is vicinity WR 127 897, at the junction of Kinh Tư Cán Gáo Đến Sông Cái Lớn and the Sông Cái Lớn.

3. This is the location ^h where most persons observed Arlo in the sampans, and corresponds with Arlo's description of his journey.

4. As you know, Arlo was arrested at Hon Tre together with several ARVN officers aboard a helicopter that ran out of fuel there. We have one report of another helicopter making a forced landing (out of fuel) at Kinh Cồn Chue on or about 30 Apr 75. (Vic WR 1091). Some observers may have mistakenly connected Arlo to this latter aircraft.
