

1/10/12

I served with the U.S. Army in Vietnam.  
I favor a modern day draft. Military service  
is like taxes. Everyone should pay this  
duty. The burden of the Iraq war has  
not been borne fairly by all citizens.  
The children of the elite class,  
for the most part, do not do military  
service.

Women should also register for the  
Draft. Israel drafts their women into  
their armed forces. Women groups would  
get more respect if they press lawmakers  
for this Draft.

Nations fall when the majority  
of its citizens fail to do their military  
service. Leaving this duty to others  
is very dangerous.

Everyone should be subject  
to the Draft. Keep it. period
