On 11 May 1969, B Co, 5/46 Inf, 198th Bde was securing the bunker line perimeter of LZ Gator, RVN. At approximately _____ hours a report was received and disseminated through channels down to each bunker on the perimeter which stated that the period through to 0300 hours 12 May was an "extremely critical period" because of a "possible nationwide offensive". At this time all Reaction Forces on LZ Gator were alerted according to the Base Defense SOP. All NCO's and Officers of B Co were simultaneously alerted and a plan was implemented to begin constant physical supervision of the bunker line. At 0110 hrs 12 May the electric lights on the bunker line between the Gate and bunker 1 through bunker 15 went out and Bunker Control was informed by the CO B Co. Elements of Signal repair were dispatched to locate the source of the trouble and fix it. Ten minutes ^{later} at approximately 1320 hours a simultaneous mortar barrage, sapper attack and RPG attack were launched by enemy forces. Enemy sappers armed with numerous explosive devices including satchel charges, hand grenades and AK 47 weapons assaulted and destroyed the S-5 building, the Bn CO hootch and bunker, the BN XO hootch, four buildings belonging to D Co and partially destroyed the radar emplacement. RPG rockets struck bunkers _____ 13, and 14. A guard in bunker 14 was KIA by the RPG and three others were WIA. Two guards in a fortified fighting positions near bunker 10A, the S-5 and the Field Grade hootch were killed by enemy AK-47 fire. The Bn CO was KIA in the field grade bunker when a satchel charge was thrown inside/ and exploded, destroying the bunker. A total of 10 persons were WIA in the vicinity of ^{bunkers} 10A through 14, by the S-5 and D Co area by mortar fragmentation, satchel charge explosions and other fragmentary explosives. This enemy attack lasted approximately 15 minutes. During and immediately following the assault two or three VC were ~~engaged by small arms fire from~~ ^{seen moving out through the concertina} ~~in front of bunker 14~~ wire in front of bunker 14 and engaged with small arms fire and hand grenades. Bunker 10A reported seeing seven VC moving out through the concertina to the right of their bunker. The enemy were engaged with small arms fire.

Personnel who were in the S-5 hootch and MF's reported seeing a few enemy evading in the direction of bunker 10A and 11. During the attack and immediately following friendly forces responded with 81mm illumination, 81mm High Explosive fire on pre-determined Defensive Targets and contact missions. Claymore mines positioned on the bunker line were blown on bunkers _____, M-79, M-60 and small arms fire, hand grenades, vehicular mounted quad .50 caliber. All Reaction forces were dispatched to ~~pre~~ assigned positions of the bunker line/ and assumed a defensive posture. Medical personnel treated the wounded and Dust Off summoned. Around 0300 hrs several more incoming enemy mortar rounds landed in the vicinity of the motor pool, B Co and artillery hill, inflicting no casualties. The following morning after daylight all Reaction forces were organized into search parties and inspected the area all the way around the bunker line, inside the concertina and outside the wire ranging to 500 meters. Blood trails were found in front of bunker 14 on paths leading down to the Vietnamese village. Reaction 6 captured a VCS approximately 250m outside the wire. The VCS was turned over to the S-2 for interrogation. One dead VC was found in front of bunker 13 in the wire. Blood ~~spatters~~ was found inside the wire between the S-5 and bunkers 10A and 11. Blood trails were found outside the wire between bnkr 10A and 12. In one defilade position just outside the wire bloody bandages were found and a blood trail and drag marks led down the hill to another defilade position and more bloody bandages. Farther out in the rice paddy the trail disappeared. A search of the area/where the attack had centered turned up ~~many~~ many discarded enemy explosives. These explosives include, 4 bangalore torpedoes, 46 'home made' grenades made from beer cans, 4 Chicom pull-friction grenades, 3 Chicom pin grenades, 1 US Pineapple grenade, 1 new RPG round minus launcher, and 1 82mm HE mortar round with a long delay chemical fuze inserted. AK-47 cartridges were found in the vicinity of the fighting positions were two US were KIA.

The hamlet chief, PSIG, and 3/2/0 have been checking ID and searching houses for the NVA soldier. Hamlet chief requested more materials to complete perimeter defences, was told Bd S5 would provide the as soon as obtained. Hamlet chief requested 2 military age males be taken to Binh Son for security check, which was accomplished. Also a new census was requested and that a copy of the old census be provided for comparison.</p> <p>(2) Binh Son District chief: He requests in (1) above were made and the census was promised within two days. The district chief said there were 9 families in Tri Binh (1) who were or are VC sympathizers, also there are some 40 families there who have moved there from other hamlets. With the census it will be possible to isolate the families suspected of cooperating with the VC when there are reports of VC in the hamlets. Elimination of the VCI should progress satisfactorily. The district chief wished to alert US personnel to be especially alert to children placing grenades into gas & water cans in vehicles. The grenades pins will be pulled and a rubber band will hold the handle down until it rots from gas or water. One US advisor in Quang Ngai was killed that way. Also soldiers should be alert to children placing "candy bars" near them. The candy bars contain 2 inches "plastique" explosives with fuse.</p> <p>(3) Senior advisor, Son Tinh district. 3.		1015	(U) Called 198th Bde S4 Food Service Advisor (CW2 Miller), refer shortage of ice. For the past 5 days we have received approximately 200 to 300 lbs per day of and authorized 3300 lbs. This has been issued in 100 lb blocks, many of which are hollow. CW2 Miller informed me that due to addition of 101st Airborne elements, ice would remain critical. I also inquired about the possibility of having normal ration requests supplemented by items which can be served to troops in field locations in other than a "hot meal" state. Items referred to are those for more salad type meals etc which can be served cool and therefore more suitable during the hot weather we are now faced with. Also asked if there was any type of disposable food containers in the supply system at this time. Was informed that there had been but they have since been found to be unsuitable and therefore deleted from the system.				All elements of the chain of command are apparently aware of the ice situation. Efforts are underway to increase the production of ice at available facilities.

3.	1050			SFC Obst, Bn Mess Steward, came in to report he had returned from Class I issue point. While there he checked on status of ice and possibility of getting rations to prepare cool, sandwich type meals for field elements. Said he was informed by Class I personnel that the ice plant at Quang Ngai is broken down and wasn't expected to be back in operation for another 1 to 1 1/2 weeks. Ice situation would remain critical until plant is repaired or until such time as the 101st Division troops are no longer OPCON to Americal. Class I also stated they probably would be able to provide cold cuts, fruit (fresh and/or canned) and other cold items for use in feeding field elements; however they would have to play it by ear for the present time.	SFC Obst will begin to request cold food items during the next ration cycle which begins on 5 Jun. This will be strictly a trial or test basis to see what rations are obtained for this purpose. If deemed not adequate we will revert to the hot meal type rations.	J

As a result of the late dispatch we were one of the last units in line at Class I. SFC Gilson took it upon himself to begin the early dispatch in order to gain a better position in line.				Since vehicle has been dispatched early we have been getting from 500 to 600 lbs more ice per day. Good position in line has done this. This vehicle will continue to be dispatched at 0730 daily. Drvr will pull his motor stables from 0700 to 0730.		
3.		1320	(U) SFC Gilson called 198th Bde S4 (SP4 Ward) to report daily deadline status and to request one (1) hook sortie for 31 May. Hook sortie requested was: 1 net load of concertina, sandbags and other misc from LZ Chippewa to LZ Gator. Wgt: 3,000 lbs. Negative backhaul.				198th Bde S4 will relay request for sortie to Bde S3 (Air).
