(8) CO 1stCompRadCo 1tr 3000 over JKH/heh ser 0533-61 of 3 Apr 1961

In accordance with reference (a) the following quarterly combat readiness report of ground units is submitted for the period 1 January 1961 through 31 March 1961. Enclosures (1) through (8) are the quarterly readiness reports of subordinate units.

This command is capable of providing one Marine Division, (Rein), one Marine Division (-), and two Marine Aircraft Wings for the conduct of combat operations. The extensive contingency deployments, activation of numerous tactical headquarters and contributions to joint staffs have debilitated the ability of this command to field two full divisions and wings.

Subj: Quarterly Combat Readiness Report of Ground Units (U)

- 3. Significant events which occurred during the past quarter and had a direct influence on readiness were as follows:
- a. The increased readiness posture established during the latter part of December was relaxed the early part of January. However, during the middle of March the situation in South East Asia again became critical and the Pacific Command was placed in an increased readiness posture. To support contingency plans for this area the 2d Battalion, 9th Marines, the afloat BLT, and the 3d Battalion, 9th Marines were deployed to the South China Sea. MABS-16 (Rein) at Udorn, Thailand became operational on 22 March 1961 in support of operation Mill Pond.
- b. During this quarter the following units participated in the transplacement program: 3d Battalion, 1st Marines rotated from the 1st Marine Division to the 3d Marine Division; 3d Battalion, 3d Marines rotated from the 3d Marine Division to the 1st Marine Division; 1st 8" Howitzer Battery (SP) rotated from Force Troops, FMFPac, to the 3d Marine Division; 3d 8" Howitzer Battery (SP) rotated from the 3d Marine Division to Force Troops, FMFPac.

4. PERSONNEL

- a. The major ground commands of Fleet Marine Force, Pacific were below authorized strength for officers and enlisted personnel. The major personnel deficiency was shortages in rank and MOS to fill authorized billets. Specific shortages were shown in subordinate units' reports.
 - b. Significant personnel factors by commands are:
- (1) 1st Marine Division (Rein): There was a serious shortage of officers in MOS 2715. Shortages of approximately 50% of that authorized by current T/O existed in OF 65, 66 in ranks from E-3 through E-6.
- (2) 3d Marine Division (-) (Rein): Key officer shortages within this division were in MOS's 0402, 0406, 1310, 2715, 6707, and 6708. Enlisted critical shortages were in OF's 02, 08, 13, 18, 21, 25, 33 and 35.

UNCLASSIFIED

30P/bmcd

Subj: Quarterly Compat Readinges Report of Ground Units (U)

(3) The First Occupante Radio Company continued to have a shortage of linguists. Since the last report an additional linguist was received, bringing the total to four of an authorized six.

5. TRAINING

- a. The emphasis this quarter was again on individual training through regimental level. The 1st Marine Division conducted two battalion size helilexes, one regimental size field exercise and two division COMMFEX-CPX's. Valuable training was provided the 1st Marine Division by LFTU PAC and the 9th Air Force.
- b. Due to a tempo of operations restriction placed on East Pac shipping, it was necessary to conduct cold weather exercises with WestPac shipping. To implement this change the 3d Marine Division conducted three BLT cold weather exercises in the Fuji-MeNair area. Other areas within WestPac, suitable for cold weather exercises, are under study. A Tank-Antitank Firex was also conducted at Fuji-MeNair. Exercises at the Fuji-MeNair training area have been extended in duration to compensate for the limitations in training areas on Okinawa. Excellent training has been derived from the actual embarkation and positioning at sea of division units in support of contingency plans.
- c. The 2d Light AA Missile Battalion completed package training in January 1961. The 1st Light AA Missile Battalion conducted a communication exercise and a pattalion field firing exercise, with each battery launching two missiles. The 1st Field Artillery Group conducted a group firing exercise and participated in a "Mount-Out" exercise.

6. MATERIAL

- a. All major ground units of Fleet Marine Force, Pacific with the exception of the 1st AA Group had on hand sufficient material to mount out and engage in assigned missions.
- b. The special report on the status of mounting out stocks of the 3d Marine Division (-) (Rein) requested by reference (b), is attached to the report of that unit.

UNCLASSIFIED

30P/bmcd

Subj: Quarterly Combat Readiness Report of Ground Units (U)

c. Specific material improvements, or limitations on individual units to perform assigned missions are enumerated below:

(1) 1st Marine Brigade

(a) It is considered that the equipment available to Headquarters Company, lat Marine Brigade is adequate for the performance of presently assigned missions. It is well understood that should the lat Marine Brigade be committed to a combat situation as a unit that considerable personnel support from other FMF, Pacific assets would be essential to permit the Brigade Headquarters to function. Also additional material assets might be necessary to be tailored to the situation at hand.

(2) 3d Marine Division (-) (Rein)

- (a) Requirements to complete outfitting the 3d Service Battalion were specified by 3d Marine Division message 210510Z April 1961.
- (b) It is considered the report made by the 3d Marine Division concerning material Catagory "C" for the 3d Tank Battalion and 3d Medical Battalion is incomplete from the standpoint of determining the true status of these units. Further inquiry will be made and a supplementary report submitted if appropriate. CMC 0421192 April 1961 takes action on modification kit requirements for M-48 Tanks.

(3) 1st Marine Division (Rein)

(a) 3d Battalion, 1st Marines was in Material Category "C" at the end of the reporting period. This unit was reactivated from zero strength on 7 March. All equipment shortages are on requisition.

(4) 1st Antiaircraft Group

(a) It is considered that follow-up action resulting from the "HAWK Conference" held at 29 Falms 27-29 March will contribute to the material improvement of the LAAM Battalions.

CONFIDENTIAL

30P/bmcd

Subj: Quarterly Combat Readiness Report of Ground Units (U)

(b) Detachment, 1st FSR has been placed in Material Category "C" principally because of deficiencies in the AOP. Details have been reported on "Report of Readiness to Conduct Atomic Warfare". Provisioning of Missile Maintenance Platoons is established through MCSA, Philadelphia and Commandant of the Marine Corps.

QUARTERLY REPORT OF COMBAT READINESS

STATEMENT OF THE COMMANDER

(FORM 2)

1. During this quarter, one infantry battalion, 3d Battalion, 1st Marines was deployed to the 3d Marine Division, 1 February, and one infantry battalion, 3d Battalion, 3d Marines joined this command from the 3d Marine Division, 5 March. Two infantry battalions, 3d Battalion, 5th Marines and 3d Battalion, 7th Marines, were activated from a cadre status, 1 January. Two Close Support Artillery Batteries, one Pioneer Platoon, and one Antitank Platoon were also activated, 1 January. New manning levels for the Reinforced Division were received, 19 March.

a. Personnel:

(1) Officers

- (a) Officer strength increased during the third quarter of this fiscal year, however, the activation of new units has increased the number required to reach manning level.
 - (b) The following table presents the current officer strength:

RANK	T/O	M/L		0 31Mar61 Strength
General Officers	2	2	1	2
Colonels	15	16	17	17
Lieutenant Colonels	54	54	55	55
Majors	120	119	104 /	104
Captains	303	298	292	283
Lieutenants	725	706	563	713
Warrant Officers	57	49	53	60
	1276	1244	1085	1234

(c) There is a serious shortage of officers in the following MOS:

2715 -- Radio Officer - T/O 22, M/L 16, Actual 6

Enclosure (2)

CONFIDENTIAL

3:**Op:s**gah 10 **Apr** 61

CONFIDENTIAL

(2) Enlisted

- (a) Total enlisted on rolls (28 February 1961) 21,561. Eligible for overseas (48%) 10,244.
- (b) Shortage of approximately 50% of that authorized by current T/O exists in the below listed ranks and occupational fields.

OF	E- 9	E-8	E-7	E- 6	E-5	E-4	E- 3	E-2/1
65				1		2	3	
66				2	6	8	1	

(3) Considering known and estimated attrition and estimated gains during the fourth quarter, fiscal year 1961, the projected enlisted personnel percentages as of 30 June 1961 will be approximately 94% of the current T/O, compared with 95% at the beginning of the quarter. Included in the anticipated attrition is the loss of two T/O transplacement battalions (First and Second Battalion, Fifth Marines). Included in the anticipated gains is one transplacement battalion at 50% of T/O (First Battalion, Ninth Marines) plus the recruits and lateral input to bring it to T/O, and the input for Second Battalion, Fifth Marines and First Battalion, Seventh Marines.

b. Training:

- (1) Two battalion size helilexes were conducted in January. In addition, one company moved by air from the Camp Pendleton Airstrip to Naval Air Station, Miramar where personnel and equipment off-loaded. From the Air Station, the company proceeded to Camp Elliott for a three day field exercise. This provided realistic training in air movement operations.
- (2) One Regimental size field exercise was conducted by the 7th Marines.
- (3) Form 4 outlines the exercises in which organizations of this Division participated during the third quarter.
- (4) One infantry battalion, 3rd Battalion, 1st Marines completed the stateside transplacement training cycle and departed for the 3rd Marine Division during the quarter.

CONFIDENTIAL

3:**Op:s**gab 10 **Apr** 61

(5) Individual marksmanship figures for the quarter are as follows:

WEAPON	NO. OF MEN FIRED	PERCENT QUAL
M-1 Rifle	4423	93.96
Pistol Automatic, Cal. 45	1076	98.42
BAR	961	95.21

- (6) A total of 920 students graduated from courses at the Division Schools Center during the quarter. One hundred sixty six (166) students successfully completed the ABCD Course.
- (7) Landing Force Training Unit, Pacific provided Mobile Instructional Teams which conducted Embarkation courses and instruction in Communication Equipment Waterproofing. Thirty five (35) officers and staff NCO's completed the Embarkation Course and sixty (69) enlisted personnel completed the Waterproofing Course.
- (8) Two Division COMMFEX-CPX's were held during the periods of 6-9 February and 13-16 March. The 13-16 March CPX included employment of the Division Service Regiment for the Troop Test Program.
- (9) Air Movement Training continued with the 9th Air Force furnishing (3) C 123's and instructional teams at Camp Pendleton 6-10 March 1961. The 7th Marine Regiment was the exclusive user and units of three (3) battalions participated in the training, staging and loading phases of air movement.

c. Materiel:

(1) General. The material readiness of this Division is considered adequate to mount out for combat. Shortages in spare parts, particularly for electronic equipment, remains the major material deficiency. Division mount out stocks are approximately 89% complete, packaged, manifested and available for deployment. All existing shortages are on order. 3d Battalion, 1st Marines is listed in category "C" because it transplaced to CONUS at zero strength with no equipment. It was reactivated on 7 March 1961 but many items of T/E equipment and supply, although on requisition, have not yet been received.

Enclosure (2)

CONFIDENTIAL

3:Op:sgah 10 Apr 61

CONFIDENTIAL

- (2) Communication-Electronics. Receipt of AN/MRC 83's has appreciably improved the communication-electronic material readiness of this Division. Comments submitted on previous Quarterly Combat Readiness Reports relative to the Radio Relay Set, AN/TRC-27, and its inability to fulfill its intended mission are still applicable. No appreciable improvement in operating characteristics have been noted by this Command since the last report. The optical line of sight characteristics, so necessary for its employment, seriously restricts its tactical employment at the infantry/artillery regimental and battalion levels. This equipment is so fragile that it requires abnormal care in handling, transportation and installation.
- (3) Ordnance. Overall ordnance material readiness is satisfactory with the exception to tanks. Currently 1st Tank Battalion is short 5 Tanks, Combat, M-48A1 (2 within the Battalion and 3 in its combat allowance) and 2 Tanks, Combat, M-67. Tanks to meet this deficiency are being with-held from issue at MCSC Barstow pending receipt of a modification. Negotiations are underway to determine if these tanks could be released and receive modification action at Camp Pendleton.
- (4) Engineer. Engineer materiel readiness is adequate but adversely affected by:
- (a) Non-receipt of 25 TD-18A Tractors scheduled to be replaced by the 1961 R&E Program. Eleven are not repairable and the remaining deadlined in various echelons of maintenance.
- (b) Recent deadlining of 6 of the 12 Koehring cranes due to an identical defective part. A representative from Barstow has inspected these cranes and replacement parts are on order.
- (c) Shortage of 3 M-37 crawler cranes. These were authorized in a new T/E change but have not yet been received.

CONFIDENTIAL

3; Op: sgah 10 Apr 61

(5) Motor Transport. Overall motor transport materiel readiness is satisfactory. There is a shortage of 12 Trucks 3/4 Ton, 4x4, M-37. 300 Trucks, Utility, 1/4 Ton, 4x4, M-422 have been received at Camp Pendleton and await only final authorization into from CMC to be released to the 1st Marine Division.

Major General, U.S. Marine Corps

To be activated during 4th Quarter FY 61 To be activated 1 April 1961

~~~

CONFIDENTIAL

#### CONFIDENTIAL

3: Op; sgah 10 Apr 61

#### Personnel

#### NOTE 1:

The major personnel problems in this command are:

- a. Shortage of officers in MOS 2715.
- b. An overage of enlisted personnel in OF 03. Reclassification and on-the-job retraining should improve the situation during the next quarter.
- c. A shortage of at least 50% of authorized strength in occupational field 65 and 66.

#### NOTE 2:

Discrepancies in actual rank and MOS versus manning level reflect adversely on the readiness position.

#### Training

#### NOTE 1:

Personnel shortages continue to effect the readiness posture of the Division. All battalions have been reinstated but some are below manning level. The readiness category of the infantry battalion will fluctuate from C to A and back to C depending upon the particular phase within the transplacement cycle. For example, a reforming battalion would normally receive a category C, rising to B at the midpoint and finally A just prior to entering the outgoing phase. Upon entering the outgoing training cycle there would be an immediate drop to category C followed by a subsequent growth to a low category B just prior to departure. The division maintains the capability to mount-out for combat within ten days. Training, at the battalion and lower echelon, continues to be excellent.

#### NOTE 2:

The transplacement system will continue to register its effect on the combat readiness posture of the Division and in particularly upon the supporting units. One or more of the infantry battalions will continue to reflect category C, for varying periods, as a result of the input cycle.

Enclesure (3) CONFIDENTIAL

3: Op: sgah 10 Apr 61

#### CONFIDENTIAL

#### Materiel

#### NOTE 1:

The major deficiencies are set forth in the commander's statement.

#### NOTE 2:

The attainment of a higher degree of readiness of units not in category A will be accomplished when the delay in receipt of spare parts has been reduced, when current shortages become available, and when present deadlined equipment is removed from the deadline status.

STATEMENT OF COMMANDER (FORM-2)

#### 1. Personnel.

- a. Although approximately at manning level, personnel strengths of the 3d Marine Division are considered to be marginal for the execution of current missions, in view of the continuous nonavailability of personnel. This is caused by the requirement to perform base support functions, including provision of Fleet Assistance Personnel to Camp Butler; maintenance of a Range Detachment at Fuji-McNair, Japan; operation of two rifle ranges on Okinawa; and the operation of nine camps on Okinawa. In addition, various contingency planning staffs must be supported. The problem is compounded by shortages in critical MOS's and the underlap created by the loss of outgoing replacement drafts prior to the arrival of the incoming replacement drafts.
- (1) To provide personnel for the Fleet Assistance Program, the operation and maintenance of two rifle ranges locally and the range detachment at Fuji-McNair, plus the operation of base functions requires approximately 750 Marines with the subsequent loss of these personnel to their units. An additional requirement is the "normal" function of operating the Division Schools (105) plus various Joint Services activities (108).
- (2) During present and scheduled activation of various contingency and exercise staffs (Blue Ox, SFF, Pony Express), approximately 73 officers and 229 enlisted Marines were provided or are earmarked by the 3d Marine Division to fill billet requirements.
- (3) Critical MOS shortages appear on the NCO level in the MOS's shown in succeeding paragraphs. Of particular concern is the shortage of 34 field grade officers in all MOS's.
- (4) There is a regular underlap of replacement personnel occasioned by the departure of outgoing personnel prior to receipt of the incoming. Personnel due for rotation in December 1960 and January 1961 were returned to CONUS on 21 November 1960. Replacement personnel were not received until February 1961. February and March returnees departed on 19 February and their replacements arrived on 19 March.
- b. The following organizational changes occurred during this period, On 17 February, 3d Battalion, 1st Marines arrived and relieved 3d Battalion, 3d Marines. 3/3 transplaced on 18 February and 3/1 became 3/3. The 3d 8" Howitzer Battery transplaced on 20 March and was relieved by 1st 8" Howitzer Battery, which arrived on 19 March.

#### 2. Training.

- a. This Division is ready for deployment in combat operations on short notice. Individual and unit training continues to be nampered by shortages or nonavailability of personnel, the training requirement to integrate newly arrived personnel into each unit, and the limitations of on-island firing ranges and maneuver areas. Scheduled exercises at the Fuji-McNair Training Area have been extended in duration to compensate for these limitations and ensure effective utilization of these Japan located training facilities. Specific types of training enhanced by the Fuji facilities are tank driving and firing, BLT scale maneuver exercises combined arms coordination and execution, and artillery gumnery.
- b. The activation and planning for task groupments in support of commitments plus the actual embarkation, and positioning at sea of certain Division units, supplies and equipment in support of CJTF 116 contingency plans during the month of April, has been excellent training and is indicative of this Division's readiness to fulfill contingency responsibilities.
- c. The rugged terrain of the Northern Training Area has been effectively utilized in conducting training for Anti-Guerrilla and Jungle Warfare.
- d. During the quarter there were four major training exercises conducted which included three BLT cold weather exercises and a Tank-Anti-Tank FIREX in the Fuji-McNair Training Area. Anti-

Enclosure (2) C-O-N-F-I-D-E-N-T-I-A-L

## C-O-N-F-I-D-E-N-T-A-L

Artillery FIREX scheduled to begin during the latter part of the quarter was limited to small unit training due to the suspension of off-island exercises; however, all artillery units benefited by the embarkation experience, and the artillery batteries supporting the BLT exercises received comprehensive training.

- e. Other off-island training conducted during the quarter included two reinforced company RECONNEX's in the Philippines and two Naval Gunfire Exercises at Tabones in the Philippines.
- f. Formal training conducted under Division cognizance was increased by the graduation of 60 officers and 695 enlisted men from Division Schools in courses ranging from Clerk Typist to Demolition and Mine Warfare.
- g. LVT wet ramp and ship-to-shore training, including the control functions and procedures involved, was conducted in coordination with amphibious shipping scheduled into Okinawa.
- h. An Afloat BLT was maintained as part of the Amphibious Ready Group during the entire quarter. Amphibious and Live Fire Exercises were conducted by BLT 1/9 in the Subic Area during their afloat phase.
- 1. The Division has participated in two alerts during the quarter, has deployed forces at sea in support of contingency plans, has maintained forces in readiness for other air or sea deployment, and is in a high state of preparedness for combat operations.

### 3. Material.

- a. The 3d Marine Division is ready for immediate embarkation as evidenced by the recent out loading of III MEF. Further, the Division is capable of carrying out sustained operations. Division wide there exists a shortage of spare parts, specifically in Motor Transport; however, this factor would not seriously hamper the Division in carrying out any assigned mission.
- b. Continued employment of tactical vehicles for garrison support imposes maximum workloads on maintenance shops of Service Battalion and FSR. A detailed report to the Commandant outlining this problem was submitted to CMC (CG, 3d MarDiv ltr 35/RWY/jcw over 11240 of 22 Mar 1961) recommending procurement of commercial vehicle support.
- c. Recommendations for changes in "M" Series continue to be forwarded. Some units have been authorized to retain certain items not presently authorized but deemed necessary at this time on a temporary basis, pending final approval of CMC.

Enclosure (2)

C-O-N-F-I-D-E-N-T-A-L

d. The 3d Service Battalion still lacks certain T/E items which curtail that organization's maintenance capability (See consolidated report).

Enclosure (2)

C-O-N-F-I-D-E-N-T--A-L

## CONSOLIDATED REPORT (FORM-3)

#### 1. Personnel.

a. The 3d Medical Battalion has an overall rating of category "C" for personnel dus to the shortage of 20 Medical Corps Officers. Personnel are not available within this Division to bring this organization up to strength since there exists a shortage of Medical Officers throughout the Division. Although the Battalion can operate effectively in garrison this shortage must be made up if committed to combat. Contingency plans provide for the build up of this Battalion for combat operations.

#### 2. Training.

a. The units listed in the Form-3 table are in Category "B" for one or more of the following deficiencies:

- (1) Lack of amphibious or advanced unit training for the required three-fourths of unit personnel.
- (2) Large input of untrained personnel and rotation of trained personnel.
  - (3) Scheduled exercises suspended.
- (4) The lack of tactical training conducted in the case of certain headquarters and service units.

The major factor contributing to the above deficiencies has been the cancellation of training made necessary by the Division reaction to defense conditions in support of contingency plans.

3. Material. The 3d Marine Division is categorized by an overall rating of B.

Major deficiencies in Category "C" Units.

#### Action taken

#### a. 3d Med Bn

This unit placed in category "C" due to shortage of non-cumulative allowances.

(1) Tentage for collecting and clearing companies.

(2) Short (2) Bath units 1 per Coll & Clear Co.

Fiscal officer will make funds available in emeragency

On requisition

On requisition

Enclosure (3) C-O-N-F-I-D-E-N-T-X-A-L

C-O-N-F-I-D-E-N-T-I-A-L

Major deficiencies in Category "C" Units.

#### b. 3d Tank Battalion

This unit has been placed in material category "C" due to short-age of spare parts, Mod kits for machine-guns, tank commanders cupols.

### c. 3d Service Battalion.

This unit placed in category "C" due to shortages of major items of equipment and deadline vehicles.

#### Action taken

3d FSR has requisitioned from Barstow

Requisitions and Work Orders to alleviate this situation are current.

Report Symbol FMF Pac 4443.1

#### SPECIAL REPORT ON MOUNTING OUT STOCKS

#### CLASS I

Since last report the delay shipments from CONUS have been received by USARYIS. All "Storm" plan requirements are now available. Approximately 90% of all POR's are the "Individual Meal" type and are of 1959 pack or later. The remaining 10% of "Charlie" type rations will be used for training and typhoon requirements.

#### CLASS II

Essential material for mount-out is on hand in adequate quantities with the exception of deficiencies in repair parts for the following equipment:

LAUNDRY UNIT, TRAILER MOUNTED
TRUCK, 5 T DUMP, M-51
RADIO SET, AN/MRC-19C
RADIO SET, AN/MRC-35A
CRANE, 150/T46
PRESSUTE UNIT-239 E/G
TD-18A W/HYSTER
WATER PURIFICATION UNIT 1500 GPH
GENERATOR, 37.5 KVA
WELDER, 400 AMP
TD-18A W/LANDING FORCE BLADE

There is a deficiency of certain Encampment/Garrison items, namely tentage, cots, etc., which could cause an adverse effect if units were required to be stage in a non-garrison location for an extended period of time. These deficiencies do not, however, affect combat readiness.

#### CLASS III

All "Storm" plan requirements are available. The 2000 empty drums, reported in last report, were received from NSD Guam but were all unserviceable. These drums were turned in to USARYIS for credit and 1000 Class A drums were requisitioned from USARYIS; no deficiencies exist.

#### CLASS IV

The only significant deficiencies in this supply category are Winterization Kits and certain items of cold weather clothing neither of which presently affect combat readiness, adversely.

#### CLASS V

All "Storm" requirements are available.

#### QUARTERLY REPORT OF COMBAT READINESS

#### STATEMENT OF THE COMMANDER

#### (FORM 2)

#### 1. Personnel

- a. At the end of the quarter the Brigade had a shortage of 6 officers and a shortage of 140 enlisted personnel. Off-icer shortages were centered in OF 04. Enlisted shortages were centered mostly around ground MOS's in pay grades E2/1.
- b. Naval personnel situation at the end of the quarter indicated a shortage of 2 dentists, 1 medical officer and 5 dental technicians. There was an overnoe of 28 Hospital Corpsmen.
- c. The overall picture of the personnel situation indicated that the Brigade was operating at 99% of the authorized officer strength and 97% of the authorized enlisted strength.

  d. Neither the Brigade Was
  - d. Neither the Brigade Headquarters Company nor the Service Battalion Headquarters have sufficient personnel to establish a compat command post. This is due primarily to the lack of communication, clerical, and motor transport personnel in the T/Os for these two units.

#### 2. Training

- a. Training readiness remains in the category "A" state. This quarter's training was devoted primarily to advanced unit training with special emphasis on night training.
- b. A Regimental FEX and a Brigade CPX were conducted. The two exercises included night helicopter lifts, a night landing in LVT's and night operations accore.
- c. The Brigade is considered fully trained for combat operations and is ready to embark immediately for any operation.

#### 3. Material

a. Material readiness continues to be maintained at a high level with only minor exceptions.

CONFIDENTIAL Enclosure (1)

b. An overall "B" category for material readiness is assigned the Brigade as a whole for the following reasons:

(1) Lack of approved tables or equipment for service Company and Headquarters Company of Service Battalion continues to adversely affect the combat efficiency of these units.

- (a) As per CMC ltr A04J-jcm/12 of 19Sep60 and CG FMFPac ltr 4E/RVR/cap of 8Oct60, this command was directed to evaluate and recommend T/E and T/O requirements for service elements of this command. Commanding General, lst Marine Brigade ltr 4/lts over 4400/l of 21Nov60 was submitted as directed. CG, FMFPac lst Endorsement 4E/RVR/jpr of 10Feb61 returned this letter for reconsideration of the personnel and material requirements. Study and revaluation is presently being conducted.
- (2) As previously reported, and on a continuing basis, certain critical items of communication-electronics and ordnance are lacking or require replacement.
- (3) Revision No. 1 to M-Series T/E (M-1996) of 15Aug60 contains the materials which would be necessary to support Headquarters Company, 1st Marine Brigade in a combat situation. This T/E is incompatible with the provisional T/O (CMC Spdltr ASH-rwl of 12Jun59) under which this company is presently operating. Until such time as the T/O and T/E are compatible with the mission of the command it is impossible to determine what materials should be on hand.

R. G. WEEDE

CONFIDENTIAT.

# QUARTERLY REPORT OF COMBAT HEADINGS CONSOLIDATED REPORT (REVERSE SIDE - FORM 3)

#### 1. Major Deficiencies

- a. Personnel. See Form 2, paragraph 1.
- b. Training. The non-availability of Landing Craft preclude the proper training of the Brigade Shore Party.

#### c. Material.

#### (1) 4th Marines

(a) Motor Transport. Pending receipt of the authorized Light Infantry carrier M274, substitute jeeps (M38Al) and trailers continue to be utilized. Receipt of 49 of subject items expected during 1st Quarter FY 64.

#### (b) Communications-Electronics

- (1) Information presently on hand indicates that Radio Set AN/MRC 83 will be received to replace the AN/MRC 6 and AN/MRC 84 during the next quarter.
- (2) The air-ground communications problem still exists. Information on previous report remains unchanged. The six MAY Radio Sets turned in for rebuild have still not been returned as of this date.

#### (c) Ordnance.

- (1) Status of ordnance has improved with the receipt of six 81mm Mortars by the 3rd Battalion (Cadre).
  - (2) Bayonets and scabbards are still critical.
- (3) Binoculars 7x50 presently being utilized as a substitute item pending receipt of Binoculars 6x30 which are authorized by T/E change. Binoculars 6x30 have been on requisition since July and August 1959.
- (4) Stop watches and wrist watches are still critical in supply. Items re-requisitioned in accordance with MCO 4400.18.

#### (2) Service Battalion

(a) The lack of an approved Table of Equipment for Headquarters Company and Service Company still impairs the support capability of Service Battalion. Paragraph 3. b. (1) (a) applies.

### 2. Action taken to rectify deficiencies.

#### a. Personnel. Net applicable.

b. Training. Field problems using available LVT's and trucks to simulate small landing craft have been conducted by Service Battalion elements to improve their amphibious landing capabilities. Some experience is being gained in beaching, loading and unloading LSTs during administrative moves to outer-island training areas. During scheduled training in SOCAL during 4th Quarter FY 1961, this area of training will be stressed heavily while shipping is available.

#### c. Material.

- (1) (Supply Status Report), 1st Marine Brigade 21/rmk over 5213/3 of 17Mar61 refers. Requisitions have been submitted by appropriate units for all existing shortages.
- (2) Recommended Tables of Equipment and Organization for Headquarters Company and Service Company, Service Battalion are presently under study and re-evaluation in accordance with CG, FMFPac's 1st Endorsement 4E/RVR/jpr of 10Feb61. Paragraph 3. b. (1) (a) applies.
- 3. Factors influencing estimated future readiness.

### a. Material.

- (1) Receipt of requisitioned items will rectify current material defeciencies.
- (2) Approval of a T/E and T/O for Headquarters Company and Service Company, Service Battalion greatly increase the support capability of this unit.
- (3) When the T/E and T/O for Headquarters Company are made compatible, the Combat Readiness Category of material will be changed accordingly.

## COMEDENTIAL

# QUARTERLY REPORT OF COMBAT READINESS STATEMENT OF THE COMMANDER (FORM-2)

#### 1. Personnel

- a. Officers: The authorised manning level for efficers is 100% of the Tables of Organization, or 272 efficers. The on-board strength is 285, an overage of 13 officers. By rank, there is a shortage of 1 colonel, 1 lieutenant colonel, 5 majors and 15 captains, an everage of 44 lieutenants, and a shortage of 9 warrant officers. Shortages are not considered critical.
- b. Enlisted: The authorized manning level for enlisted is 90% of Tables of Organization, or 3848 enlisted. The on-board strength is \$196, an overage of 348 enlisted. The single enlisted shortage considered detrimental is a shortage of 11 lst Sergeants.
- c. From a personnel standpoint, this command is considered capable of embarking for combat operations.
- 2. <u>Training</u>. The varied status of units within Force Troops Units results in diverse training programs and considerable differences in training readiness.
- a. Individual Training. Restoration of adequate TAD funds has resulted in maximum utilization of school quotas available in the Southern California area. The continued availability of sufficient funds for the next fiscal year would have a propitious effect on the training readiness of units within the command. The 1st Field Artillery Group has completed the following courses of instruction during the quarter;
- (1) Gunnery School: Duration of 4 weeks primarily designed to train 0844 personnel. 23 students were graduated.
- (2) Survey School: Duration of 4 weeks with 27 students graduating.
- (3) Radio Operators School: Duration of 4 weeks to train 2531 personnel. 37 students graduated.

COMFIDENTIAL

#### QUARTERLY REPORT OF COMBAT READINESS STATEMENT OF THE COMMANDER (FORM-2 CON'T)

(4) TD-18A Operators Course: Duration of  $2\frac{1}{2}$  weeks with 28 students graduating.

A Maintenance school for section chiefs and gunnery sergeants is currently in progress and will terminate on 8 May 1961.

Individual training in various MOS fields has been stressed within the 1st and 2nd LAAM Battalions.

- b. Basic Unit Training. All firing batteries within the 1st Field Artillery Group have participated in battery firing exercises and RSOPs. The batteries recently activated stressed basic fundamentals of gunnery and fire direction in preparation for a more advanced training program for the forthcoming quarter. The 1st and 2nd LAAM Battalions have primarily limited the scope of their activities to basic unit training. The communications personnel of the 1st LAAM Battalion have participated in one communications exercise and one Battalion Field Firing Exercise was conducted at Twentynine Palms wherein each battery launched 2 missiles. Package training for the 2nd LAAM Battalion was concluded in January. A firing exercise is scheduled for the forthcoming quarter which will mark a debarkation point from basic unit training to advanced unit training. Unit Training for Detachment 1st Force Service Regiment does not apply to the Detachment as a complete unit. Task organizations are formed as required.
- c. Advanced Unit Training. The 1st Field Artillery Group conducted one Group firing exercise and participated in a "Mount Out" exercise during the quarter. Included in the task organization for this exercise was the 5th Dental Company. The "Mount Out" exercise was conducted in a highly satisfactory manner and contributed considerably to the readiness of the participating units to depart immediately for combat operations. Within the Antiaircraft Group the 1st MAAM Battalion conducted an ADEX in conjunction with the 3rd Marine Air Wing. This was immediately followed by a battalion firing exercise. "D" Company 7th Engineer Battalion has been engaged in the process of reparing and lengthening the Marine Auxiliary Landing Field at Twentynine Palms.
- d. Amphibious Training. The 4th 8" Howitzer and 1st 155mm Howitzer Batteries were scheduled to participate in PACHIBLEX 3-61 during the quarter. However, the amphibious portion of the exercise was cancelled and no amphibious training was received by Force Troops units during the quarter. During the 2nd quarter the 1st LAAM Battalion, 4th 155mm Howitzer Battery, 1st HARB(-) and portions of Detachment, 1st FSR are

COMPTIBUTIAL

#### QUARTERLY REPORT OF COMBAT READINESS STATEMENT OF THE COMMANDER (FORM-2 CON T)

scheduled to participate in the amphibious portion of PHASE III. PACPHIBLEX 3-61.

#### 3. Material.

- a. The materiel readiness ratings of the units of Force Troops, Fleet Marine Force have not changed from last quarter. Nevertheless, improvement has been noted, and the coming quarter should see and improvement in the materiel readiness of the command, particularly in the two LAAM Battalions. Specific comments pertaining to the units are as follows:
- (1) 5th Dental Company. Deficiencies are attributable to shortages in mounting-out blocks of operative and prosthetic supplies, two Pulp Testers, and X-Ray unit and a Field Refrigerator.
- (2) \*D\* Company. 7th Engineer Battelion. Deadlined Equipment, including the TD-18 Tractor, M-51 Dump Truck and the M38Al Jeep, causes this company to be placed in a material readiness status of C.
- (3) <u>Detachment</u>. <u>lst Force Service Regiment</u>: For comments on the AOP see "Report of Readiness to Conduct Atomic Warfare". The missile Maintenance Platoons are short spare parts and test equipment. <u>Deadlined PU-2%</u> Generators in the lst platoon and shortages of same in 2nd Platoon adversely affect their readiness.
- (4) lst Field Artillery Group. Deadlined items of equipment constitute the Field Artillery Group deficiencies in material readiness. These are being reported by separate report. The wrecker shortage has been remedied with receipt of the new M543's. However, spares are lacking for these vehicles, and this would become significant in a combat situation. CMC ltr CSX-5-crl of 20 Feb 1961 applies.
- ficiency among the Missile Battalions is a shortage of spare parts. Other problem areas are communications, generators and modifications. In communications, the units are lacking in equipment to meet their requirements for combat operations. AN/MRC-6C's substituted for AN/MRC-83's are not suitable. Deficiencies exist in Radio Set AN/TRC-27 which make it unsatisfactory for use by Missile Battalions. A report of these deficiencies is being prepared and will be forwarded at an early date. The PU-296 is not adequate for the task assigned to it in the AA Battalions. 2nd LAAM's presently does not have its full allowance of generators. In 1st MAAM Battalion, modifications to some TMC's and the blast mats must yet be accomplished.

3/1s 5213 Seri

# CONSTRUCTION

#### QUARTERLY REPORT OF COMBAT READINESS STATEMENT OF THE COMMANDER (FORM-3)

- 1. Personnel. Category "A" has been specified for this command.
  - a. N/A
  - b. N/A
- Training Category "B" has been assigned to Force Troops in 2. Training. its entirety. This is due primarily to the lack of advanced unit and amphibious training for the 1st and 2nd IAAM Battalions and the recently activated batteries in the Field Artillery Group. Participation by all Force Troops units in a minimum of one amphibious exercise during 1961 should enable a Category "A" assignment to be made regarding Force Troops by 30 September 1961. A majority of the key personnel have completed training or had the experience to enable them to plan and conduct operations.
- a. Action Taken. All Force Troops units have been scheduled to participate in a minimum of one amphibious exercise during calendar year 1961.
- b. Estimate in column 6 is based on the continuance of an advanced unit training program culminating in the participation of a majority of Force Troops units in a Combat Support Landing Exercise during the period 11-22 September 1961.
- 3. Materiel. Materiel Readiness of the units of Force Troops is shown in the consolidated Report Form. It is based upon shortages, deadlines and characteristics of certain equipment which render same unsuitable to the task assigned. This is summarized in Form 2. These matters have been made known by separate correspondence.
- a. Action Taken. Requisitions for shortages have been submitted. A conference on HAWK was held at Force Troops, Fleet Marine Force, Pacific, Twentynine Palms on 27-29 March 1961. This brought many problem areas to light. At this time it was learned that spare parts for HAWK will be forthcoming during April through July and August. This should result in significantly increasing the two LAAM Battalions combat capability.
- b. Estimates of "Unknown" for all catergory B and C units is based upon a lack of positive information as to when corrective action will be forthcoming. COMPABEMTIAL

Capy No.

- (2) Statement of the Commander
- (3) Consolidated Report
- (4) Training Exercise Report

Copies

- 1. In compliance with reference (a) through (h), eight copies of the enclosure are submitted.
- 2. The deadline equipment report required by reference (d) will be forwarded under separate cover.
- 3. The anticipated change to the materiel status of this command mentioned in the last report, resulting from charging the assets of Detachment, 1st FSR at 29 Palms, against the allowance of 1st FSR as directed by reference (i), has been effected on one Machine Shop Trailer #1 and one Machine Shop Trailer #2. Further action is being held in abeyence pending the establishment of a Support Battalion, Fleet Marine Force, Pacific as outlined in reference (j).
- 4. Reference (k) requires certain changes in the earmarking procedure now in use by this organization. The full effect of this change on the material readiness has not yet been determined. Clarification of these changes is being requested by separate correspondence.

4. Name of Commanding Officer: Colonel ALVIN S. SANDERS USMC

5. Report includes the following subordinate units:

a. Headquarters and Service Battalion (-)

b. Materiel Supply and Maintenance Battalion (-)

c. Automatic Supply Distribution Battalion (-)

ENCLOSURE (1)

COMPIDENTIAL

1. Statement of the Commander

a. Personnel

(1) The manning level for the second half of fiscal year 1961 was received 23 March, 1961. As approved, this manning level authorizes 96 officers and 1616 enlisted personnel. As stated in the previous readiness report, preparation of recommendations for this manning level were seriously restricted by reason of the combined manning level for the Regiment at Camp Pendleton and the Detachment at 29 Palms not being allowed to exceed the reduced strength in any rank or MOS authorized by T/O L 3449 including Change 1 of 8 August, 1960. CMC letter AO4J/blm/5 of 13 December, 1960, to CG FMFPac and others states that the Detachment at 29 Palms will be disbanded effective 1 July, 1961. Conceivably, this would allow this Regiment to base its recommended manning level on the full reduced strength structure. This, if correct, would alleviate to a great extent, the authorized personnel problem of this Regiment. This is assuming that ranks and MOS's as recommended, were approved.

| (2) | <u>FMF</u> | Strength as of 31 March, 1961                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 110    | MCI.      | . :                                          |

(3) The current troop test program is requiring the services of a great number of officers and enlisted personnel of this Regiment. This is expected to seriously curtail this Regiment's readiness for combat. The troop test program has been the cause for a decision to delay recommending changes to the current T/O, wittli these troops tests have been completed and analysed, it considered inappropriate to make any further recommendations for medifications.

ENCLOSURE (2)

(4) Considering trained personnel on board at Camp Pendleton, this Regiment could satisfactorily support no more than a task organization of RLT-MAG size rather than a Division-Wing Task Force as envisaged by the mission stated in T/O L-3449. The following figures will substantiate this statement from the standpoint of the Regiment at Camp Pendleton.

Overstrength occasioned by reassignment of Mobile DPI Platoon (1 officer and 34 enlisted) from Service Bn, lstMarDiv on 16 February 1961 by authority of CMC ltr AO3H-gdr of 16 January 1961 and reassignment of Marine Corps Exchange Platoon (15 enlisted) from Marine Corps Base, Camp Pendleton on 21 February 1961 by authority of CMC ltr AO1E-yp of 16 January, 1961. The Exchange Platoon has been further increased by assignment of 29 basic exchange men (MCS 4100) to this Regiment by the Commanding General, 1st Marine Division.

#### b. Training

- (1) A total of 241 Marines completed the five (5) weeks concentrated course of basic military and unit FMF instruction presented by the Regimental Training Unit (RTU).
- (2) Support of division and force troops units conducting field exercises provided the following training for maintenance and service personnel within the Regiment.

| UNIT SUPPORTED                           | TYPE OF SUPPORT                           | PERIOD                      |

#### c. Materiel.

- (1) This Regiment has on hand, in a serviceable condition, or on carmarking requisition sufficient materiel to perform its assigned primary combat mission, with certain exceptions as noted in detail in enclosuro (3).
- (2) The materiel readiness evaluation is based on the assumption that all combat essential equipment, which is on earmarking requisitions held at Marine Corps Supply Center, Barstow will be available to this Command when required and that this equipment will be issued in a serviceable condition requiring a minimum effort for preparation for combat operations.
- (3) Sufficient boxing, packing, crating, and chocking materiels are on hand or order to permit embarkation in accordance with current contingency plans.

alvin S. Sanders Colonel, U. S. Marine Corps

- 1. Indeterminable in that Category "A" or "B" may only be assigned when units are at full strength T/O instead of manning level.
- 2. Indeterminable in that these units are not activated.
- 3. Intergrated into EMat En. for technical training but not manned as a Company.

4. Achievement of a higher materiel rating is contingent on the following factors: fulfillment of outstanding requisitions for materiel shortages listed in enclosure (3); availability of funds for future procurement; and general improvement of on hand equipment.

ENCLOSURE (3)
CONFIDENTIAL

#### 1. Major Deficiencies

#### a. Personnel

#### (1) Officers

- (a) 8 officers were joined during the quarter while 7 were dropped.
- (b) Losses prior to 1 July, 1961, through transfers and retirement are 18.
- (c) Although, the following MOS's are utilized in the vacant MOS's in the T/O, they are inadequately trained in the specialties required of a complex organization as this Regiment:

| MOS-         | TITLE                                                                                                                      | AUTH  | ACTUAL            |

ENCLOSURE (3)
CONCONFIDENTIAL

#### b. Training

The rapid turmover of trained personnel, manning level restrictions, unmanned and unactivated elements influences the attainment of a high level of organizational effectiveness of the Regiment.

Additionally the assignment of FMF personnel to the non FMF battalion to perform garrison missions, while enghancing individual technical skills leaves much to be desired by the FMF Battalions which will assume the responsibility upon mobilization or deployment. The primary concern is the Supply Company which is intergrated into the Base Materiel Battalion,

c. Materiel. Major materiel deficiencies that exist in the Regiment are as follows:

#### (1) MS&M Bn.

- (a) Shortage of major T/E equipment.
- 1. Engineer Maintenance Platoon.

a. Three (3) Trailer, 2 Ton, 4 Wheel Stock Room, TA #51020, FSN 2330-300-0337.

#### (2) ASD Bn.

- (a) Headquarters Company.
- 1. Two (2) Truck, Wrecker, 6 X 6, M-62, EA #51670, FSN 2330-835-8325.
  - (b) Ammunition Company

1. One (1) Heat Tie-Down Unit, 762MM W/E M-78Al, TA #60700, FSN 1055-614-7264.

2. Statement of action taken by the Commander to rectify major deficiencies listed in paragraph 1 above.

#### a. Personnel

- (1) A report of critical MOS's is submitted to Commanding General, lst Marine Division, monthly. Continuing liaison is maintained with the Division G-l and Personnel Office regarding shortages, both officer and enlisted.
- (2) A vigorous reenlistment program is in effect. 32.8% of first term Marines recommended for reenlistment have been reenlisted during this quarter, and 87% of second term Marines.
- (3) An accelerated on-the-job training and retraining program is in effect.
- (4) Upon completion of the current troop test program, it is intended to submit a recommended change to the L-Series tables of organization. Recommended changes at that time will be focused on increasing the reduced strength column as required to provide sufficient personnel to logistically support the Marine Corps Base, Camp Pendleton and the 1st Marine Division.

#### b. Training.

(1) Continual emphasis on the technical training of problem MOS's.

(2) Intensive on the job training for basic MOS's consistent with garrison requirements.

#### c. Materiel.

- (1) The T/E shortages listed in paragraph 1.c. above have been requisitioned under priority designator 6. Spares required to remove major end items from deadline have been requisitioned under priority disignator 6. A status report of requisitions for these repair parts will be submitted under separate cover.
- (2) Non-critical T/E equipment not on hand is being requisitioned within fiscal limitations.

2011

#### 3. Factors Influencing Future Readiness.

#### a. Personnel

- (1) Continued replacement of qualified personnel with basic and unrelated MOS's seriously affects the desired status of readiness of this Regiment.
- (2) A continued requirement to maintain both the Detachment at 29 Palms and the Regiment at Camp Pendleton at sufficient strength in appropriate ranks and MOS's and remain within the authorized reduced strength of T/O L-3449 will seriously affect the capability of providing adequate logistic support for the two bases during the next quarter. However, subsequent thereto, if the Detachment at 29 Palms is disbanded and this Regiment is allowed to base its recommended manning level on the full reduced strength structure, it would alleviate to a great extent the authorized personnel problem.

#### b. Training.

- (1) Dispersion of personnel in garrison support function.
- (2) Disproportionate number of SNCO's in retraining assignments.

#### c. Materiel.

- (1) Acquisitions of major T/E equipment and repair parts presently on requisition.
- (2) Availability of funds for the procurement of T/E shortages and spare parts.
  - (3) Approval of recommended modifications of allowances.
  - (4) Continued efficient operation of the R&E Program.

#### QUARTERLY REPORT OF COMBAT READINESS STATEMENT OF THE COMMAND (FORM-2)

- 1. a. <u>Personnel</u>: The present T/O for this command provides for a forward and rear echelon in the event of combat operations. To provide a forward echelon for combat operations it would be necessary to be augmented in personnel from other sources.
- b. Training: It is considered that the personnel presently aboard this command are capable of embarking immediately for combat operation in support of Headquarters, Fleet Marine Force, Pacific in accordance with our mission as assigned in the T/O, however to assure maximum efficiency, augmentation personnel and personnel of this command should train in close conjunction.
- c. Material: This command has on hand sufficient material in accordance with our M-Series T/E #4928 to embark for combat operations.

CONFIDENTIAL Enclosure (la)

#### QUARTERLY REPORT OF COMBAT READINESS CONSOLIDATED REPORT (FORM-3)

Estimated Current Combat Readiness

Estimated Date, based on information available, when Combat Readiness will be in either Category A or B as appropriate.

| 1<br>Unit | : | 2<br>Personnel | : | 3<br>Training | : | 4<br>Material | :      | 5<br>Personnel | : | 6<br>Training | :        | 7<br>Material |
|-----------|---|----------------|---|---------------|---|---------------|--------|----------------|---|---------------|----------|---------------|
| H&SBn,    | : | A (7)          | : | A             | : | A             | :      |                | : |               | :        |               |
| FMFPac    | : | (See below)    | : |               | : |               | :<br>: |                | : |               | <u>:</u> |               |

#### 1. Major factors upon which this estimate is based.

- a. <u>Personnel</u>: This command is not capable of performing combat operations with the personnel presently on hand. However, our T/O calls for a personnel augmentation in the event of combat operations. With this augmentation it is considered that our readiness would be in category A.
- b. <u>Training</u>: Though all personnel have not completed the phases of training as contained in current Marine Corps directives, it is considered that the personnel on board are at a degree of training sufficient to enable them to support Headquarters, Fleet Marine Force, Pacific in combat operations and to warrant training readiness being placed in category A.
- 2. Factors influencing estimated future readiness: None

3. Date Submitted: 5 April 1961

4. Name of Commanding Officer: Lieutenant Colonel Joseph S. GARDNER

5. Report includes the following units: None

Enclosure (la)

# QUARTERLY REPORT OF COMBAT READINESS STATEMENT OF THE COMMANDER (FORM 2)

#### 1.a. Personnel:

Table of Organization Numbers (Provisional) 4853 revision numbers one, as modified by CMC letter AOLE-bjf of 25Nov1960 authorized 271 enlisted and 38 officers (including 6 USN) for this company. The current authorized manning level is 211 enlisted, 22 officers USMC and 6 officers USN. Assigned at the end of this reporting period were 200 enlisted, 21 Marine officers and 6 USM Officers. Considering enlisted personnel, the company is 95% Combat ready based on the manning level. The capability for effective support of an infantry division is limited by lack of a second Naval Gunfire Spot Team and a second Forward Air Control Team for each Battle Group.

#### b. Training:

The high turnover rate of enlisted personnel during the reporting period has reduced the high state of training previously maintained in the Company. This is being overcome by an accelerated training program concentrated on ANGLICO type functions. There remains, however, a sufficient nucleus of highly trained personnel to consider the company sufficiently trained for immediate Combat operations.

#### c. Material:

A high state of material combat readiness exists. There are no out standing requisitions that effect the combat readiness of the Company.

Lieutenant Colonel, U. S. Marine Corps Commanding

# QUARTERLY REPORT OF COMEAT READINESS STATEMENT OF THE COMMANDER (FORM - 2)

- 1. a. <u>Personnel</u>. The First Composite Radio Company is authorized a manning level of one hundred per cent T/O (10 officers, 152 enlisted USMC, and 2 enlisted USM). The present strength of the company is 10 officers and 150 enlisted USMC. One (1) enlisted USM is assigned for temporary additional duty in excess of 30 days.
- (1) The assignment of the HMI on a TAD basis to the company is not considered satisfactory. He should be assigned on a regular tour basis as are other personnel in order to preclude a change of Corpsman every 4 to 6 months. The problem of security clearance is an additional militating factor against assignment on a temporary basis.
- b. Training. During the quarter reported on, the operational elements of the company were employed as follows:
- (1) Detachment "A" after completing specialized operational training at the National Security Agency, Ft. Meade, Maryland conducted forward area intelligence training at the 9th USASA Field Station in the Philippines.
- (2) Detachment "B" conducted OJT to improve combat readiness prior to embarkation for Green Light Phase I and III.
- (3) Detachment "C" participated in the 4th Marines Kahuku Exercise and conducted OJT to improve overall combat readiness.
- (4) Operations Officer TAD West Pac as liaison officer to CJTF 116 and 9th USASA Field Station.
- c. Material. The Special Communication Shelters (AN/TSQ 40, 41, & 42) received on 22 January 1961 have significantly increased the company's capability to perform its assigned mission. Receipt of the Craig Helo-Lift Huts (CMC 2215332 Dec 1960 refers) will further enhance the overall combat readiness stature of this unit.
- d. Summary. The capability of First Composite Radio Company (augmented by personnel to fill critical billets) to provide tactical support to DIV/WING sized units is considered adequate. Capability to support force level operations for an extended period meets minimum requirements.

#### PART 2 of FORM - 3

#### 1. Major Deficiencies.

a. <u>Personnel</u>. Lack of linguists (MOS 8631), as reported previously, is the major personnel deficiency. Of the six authorized, four (2 Russian, 2 Chinese) are on board. In order for this unit to perform its training mission in support of contingency plans, a minimum of two linguists, skilled in each language of the target areas involved, is essential.

#### b. Material.

(1) The following items constitute the major material deficiency affecting combat readiness of this command:

| ITaM                     | QUANTITY | <u>s tatus</u>                                                    |
|--------------------------|----------|-------------------------------------------------------------------|
| (1) Repackaged AN/MTQ-3  | 24       | CMC indicates ready for acceptance at contractors plant 30 Jan 61 |
| (2) AN /MRC-36           | 2        | Barstow indicates on back-<br>order                               |
| (3) Repackaged AN/MRD-15 | 4        | CMC indicates ready for acceptance contractors plant 30 Jan 61    |

(2) Deadlined equipment on hand:

1 PU 239 power unit. Parts ordered as listed below:

| Req No. | <u>Date</u> | Stock No.              |
|---------|-------------|------------------------|
| 1413-61 | 18N ov60    | 2920 <b>-37</b> 1-5121 |
| 1412-61 | 18Nov60     | 6110-607-3806          |

## 2. Statement of action taken by the commander to rectify major deficiencies listed in para 1 above.

- a. The shortage of linguists has been partially alleviated by personnel augmentation from other sources on a TAD basis and by utilization of the extensive library of language training tapes developed by the command.
- b. Receipt of repackaged AN/TTQ-3 and AN/MRD-15 equipments will correct the material deficiency. Tracer and follow-up action through normal channels on the remainder of the minor material shortages will continue.

CONFIDENTIAL

#### 3. Factors influencing estimated future combat readiness:

a. Presently programmed training and receipt of special equipments noted above will enable this command to meet contingency commitments satisfactorily.
